FOR THE ADVANCEMENT OF OCEAN BEACH, POINT LOMA, MISSION BAY AND MISSION BEACH

Twenty-second Year No. 16

Phone Bayview 3157

Friday, February 4, 1944

Five Cents a Copy

Ocean Beach, California

## COMMENT and RUMOR

Mrs. Leila S. Neilson, one of the new arrivals from Chicago living in the new addition at Sunset Cliffs, says out of seven neighbors, six are from Chicago, so they are thinking of naming this new 140 home addition "Chicago-by-the-Sea."

Some of our neighbors at the head of Newport avenue became worried this week when a large city-owned power shovel and fleet of trucks started moving dirt into the gun emplacements and excavations made by the army as well as hauling off a good quantity of soil.

Inquiry of the men on the job says the site is not being considered as a housing project, but that a good quantity of soil was needed to fill in about the police station and down at the water front back of the new rock sea wall.

We need three copies of the Ocean Beach News issue of Dec. 31st for an advertiser. Will pay 10c each for the first three we receive.

Look's like it is going to improve the appearance and convenience of the Abbott street area too quite a lot. We hope the finished job will be satisfactory to all.

Our classified ads are read just as diligently as the personal columns, so if you have articles in the garage or attic that someone could use, now is the ideal time to turn them into cash, then use this cash to buy more war bonds.

Some ads are better than others, just as some show windows are better than others, or as some salespeople are better than others. We admit advertising isn't perfect, yet it does a better job than anything else yet discovered.

Advertising tells you what is to be had, and where to buy it, and is the cheapest way of letting the public in on information you wish to pass along.

If you can't get all the sizes or kinds of envelopes you want, you might be interested to know the reason. In the fiscal year 1933 our government purchased 468 millions of envelopes. For the fiscal year 1944 the amount will be almost double, the estimate made by the envelope manufacturers being that 8,000 millions of envelopes will be used.

We are happy to see progress made in Pacific fighting and that the attack on the numerous Marshall islands is going well. When our men can take these heavily fortified places that have been held by the Japanese for a quarter of a century we are indeed making progress.

When the Philippines are retaken by American boys we shall have real cause to celebrate, and we hope this operation will not be too costly in the lives of American youths. We are not so particular about how many Japs are killed.

One hundred years has been considered an almost impossible age, yet this week Enrique Alvarez of Ramona passed away claiming to be 114 years of age. He is said to have been born Jan. 13, 1830, aboard a vessel bound from Spain to America. He continued in good health until about one year ago.

## New Home Owners Like Ocean Beach

Mr. and Mrs. W. G. Dunson, who bought the Askew property, corner Cable and Brighton streets about six months ago, report they sure do enjoy their home in Ocean Beach. They have been residents of San Diego since 1920 and Mr. Dunson has been a postal carrier out of the San Diego main office for many years.

The property bought from Mr. and Mrs. B. E. Askew by the Dunsons is 2101 and 2111 Cable street, two commodious homes, and the corner house, No. 2101 they recently sold to Bates Har-

## IN THE SERVICE--

News from our local boys in service as well as letters or excerpts of letters will be gladly published in this newspaper. Please bring them in for many service men receive the Ocean Beach News by mail weekly and are glad to hear of former friends.

Frank B. McElwee, jr., 18, son of Mr. and Mrs. Frank B. McElwee, 5075 Niagara ave., graduate of Pt. Loma High school, upon finishing his basic training at Camp Gruber, Okla., in January, was promoted to corporal and assigned to an infantry division at the same location.

Training as a veterinary technician in a veterinary general hospital at Camp Carson, Colo., is Pfc. Robert Rossman, of 3430 Zola st., who has just returned from maneuvers where actual battle conditions were simulated.

Charles W. Hobson, of 839 Sunset Cliffs blvd., is at the San Antonio aviation cadet center, San Antonio, Texas, receiving pre-flight army training.

Recently promoted to private, 1c, in the Wac, Mary E. Ingram, 4964 Brighton ave., is stationed with the army air forces troop carrier command at Pope field, Ft. Bragg, N. C.

Commissioned a second lieutenant in the army, George B. Robbins, jr., son of Mr. and Mrs. N. L. Currier, of 1510 Elevation rd., has completed the officer candidate course at Ft. Benning, Ga. He is a graduate of Pt. Loma High school, where he was prominent as a cadet officer before entering the army last August.

Sioux Falls, S. D., Jan. 31.—Pvt. Albert L. Petroff, of 4944 Naragansett ave., Ocean Beach, Calif., was recently graduated with high honors from the AAF Training Command Radio School at the Sioux Falls Army Air Field. Petroff compiled a final average of 87.7 per cent and attained a code speed of 20 words per minute, to rank fifth in his class. He is now qualified to take his place as a radio operator-mechanic in one of the Army Air Forces' famed bombers.

Dr. Albert R. Egan, Ocean Beach physician for several years, until enlisting in army service early in 1941, writes Rollin Reed, local banker, that he is now in Italy and sees many of the boys from the front lines. Dr. Egan went to the South Africa theatre of war as soon as activities began in that section, then it is believed followed on to Sicily and Italy.

George E. Anthony, son of Mr. and Mrs. E. N. Anthony, 3644 Bayside Walk, Mission Beach, has completed an aviation mechanic's course at Amarillo army air field, Texas. He is a Pt. Loma High school graduate.

Pvt. John Louis Groff, 18-year-old son of Col. John Groff, Camp Elliott chief of staff, has been named honor man of his recruit training platoon at the Marine base here and has been awarded the honor badge for efficiency. Young Groff, whose home address is 4370 Coronado st., is following his father's footsteps in working his way up through the ranks. His father began as an enlisted man during the last war.

## WIFE GRATEFUL FOR BLOOD THAT SAVED HUSBAND

Five pints of blood, which meant the difference between life and death for her husband when he was wounded on Guadalcanal, is being paid back to the Red Cross by his wife, Mrs. Leona L. Griffith, 4941 Voltaire st.

An employee of Ryan Co., Mrs. Griffith, who weighs 110 pounds, signed up with other volunteer blood donors to contribute her share.

Griffith has been in the Marine corps for five years, was aboard a ship sunk off the Savo islands, was wounded seven times on Guadalcanal, and is alive today only because of repeated blood transfusions, his wife said.

## Your Chamber Of Commerce

Ocean Beach is now getting the thing most of us have been hoping and fighting for in the community, a sea wall to protect our water front and the homes along the front.

I feel that we should be very happy with this protection. I still believe Fred Rhodes has something in common with King Neptune.

Mr. and Mrs. I. A. Hegerle, 4519 Bermuda ave., are four-star parents, their son Harold H. Hegerle, S. K. 2/c, U. S. Navy, arrived by plane on a surprise visit, the first in 18 months. He has been on cruising duty in Atlantic waters. Friday evening he expects to leave for New York. Harold, a Pt. Loma High school graduate, made a good showing in foot ball and baseball while attending the school.

Staff Sgt. Earl F. Hegerle, U. S. Army is receiving training in the air corps in Amarillo, Texas. The third son is Cadet Mathew J. Hegerle, who is receiving training as advanced navigator. He graduated from Pt. Loma High school last June and entered the service in August.

The fourth star on the banner at the Hegerle home, is for Miss Charlotte M. Hegerle, U. S. Marine, who is attending a radio operator school in Oxford, Ohio. She is also a Pt. Loma High school graduate.

MARINE OFFICER MARKED 40TH YEAR OF SERVICE

One of the first marines to land on Kiska—in 1905—Maj. Harry Halladay, 61, marine corps base commissary officer, Monday celebrated completion of 40 years of active duty as a leatherneck.

Halladay can count among his recollections the San Francisco earthquake and landing under fire at Vera Cruz. He was also one of the first on Midway island, and was aboard one of the first American warships to enter Pearl Harbor. He has been on duty here five years and resides with his wife at 3110 Udal st.

Dear Mrs. Hartvigsen:

The good old LST 19 received its second sack of mail tonight, and that's what all the fellows are doing at the present, reading their treasured letters.

And that's the reason I'm writing you tonight, because your very thoughtful calendar was received, and sure enough that's just what we needed.

I advanced to signalman third class (SM 3/c) Dec. 1st, and really got a bang out of it.

We have seen plenty of bloodshed and the 'hell' of war, and before we expect to turn the bow towards home, we will see plenty more.

Yes, you can tell the folks back home that the LST 19 is really in there pitching.

Before I close, please tell the gang at the bank hello, and that I'm well.

'Bye for now. Keep those home fires burning. Sincerely yours, Wayne L. Rosenber, SM 3/c U.S.S. LST 19—C.G. c/o Fleet Post Office, San Francisco, Calif.

ON NORTH IRELAND

Dear Mr. and Mrs. Hartvigsen:

I am sorry I have not written sooner, but I have not received mail from anybody for so long that I just stopped writing.

I received the calendar you sent. Thanks.

I hope both of you are in the best of health, and also your son. I am in North Ireland, in the best of health, except for a cold in the head. The people over here are sure friendly. They drive small cars that look like baby Austins and the steering wheel is on the right hand side. They also drive on the left side of the road.

I've been in Belfast on a pass and had a swell time. These English and British Wacs are O. K., and these Irish girls sure can dance.

## Ocean Beach Scouts Advance In Board Of Review Jan. 28

In a Board of Review for the North Shore District held Friday evening, Jan. 28th in Ocean Beach, Martin Murphy presided as chairman. Assisting were Carleton Bingham and Fred J. Tucker.

The following scouts were granted advancement: Carleton Bingham and Walter Turner of troop 28; Al Fleisher of troop 19; James Ripka and Bob Lewis of troop 15; Jim Pearson and Stencil Wilson of troop 24; Bob Nelson, Charles Brown, Bob Ritter and Leroy McDonald of troop 145.

A scout troop is being organized at Azure Vista this week, making a very strong showing for this immediate area for this worthy youth training organization.

District Meeting Jan. 24

On January 24 the San Diego Council of the North Shore district held a meeting in the log cabin at which the following officials were present: Leroy Wright, II, district chairman; H. H. Batchelder, leadership training chairman; Wayne Mullis, district commissioner; Major I. D. Offer, advancement chairman; William Clegern, neighborhood commissioner; A. W. Muschbach, er, asst. scoutmaster, troop 9; Glen Pearson, chairman troop 24; H. H. Haw, chairman troop 29; Fred J. Tucker, asst. dist. commissioner; Carleton R. Bingham, committeeman troop 28; C. R. Seely, neighborhood commissioner; Martin Murphy, vice chairman; Don Sweetwood, field executive.

## O. C. D. Anxious For Mills To Continue

Burrill S. Mills is in receipt of a letter this week from the Office of Civilian Defense, at Dallas, Texas, asking that he reconsider his resignation as consultant WOC in that the OCD is being maintained for any emergency which may arise.

"Under the above contingency" the letter states "we have counted heavily on the valuable services we know you could render. We therefore request that you withdraw your resignation and let us continue to maintain this reserve of your services."

Mills acted as consultant for the Eighth Civilian Defense Region for about a year with headquarters at Tulsa, Okla., though his duties took him into many of the nearby states.

He just placed the rock in time to receive the worst storm and highest tide we have had here in many a day.

Mr. Rhodes is the superintendent of public works and has told this chamber they are going to extend the sea wall as far as they have rock, approximately to Sarsa-toga ave. and fill in and rebuild Abbott street. That is what we ask for isn't it folks?

It has been a long time and some of us had begun to think the boys down town had let us down, but don't forget they have their headachess too. Anything that is worth having is worth waiting for.

Our secretary, Mrs. Charlotte Young has just informed me that we have now in the Ocean Beach Chamber of Commerce the largest and most enthusiastic membership it has ever had. Due to some changes in the chamber this year we have had a lot of people, both business and individuals, who have joined. Some of them new and some old members come back after checking out five or six years ago.

Monthly Meeting Feb. 14

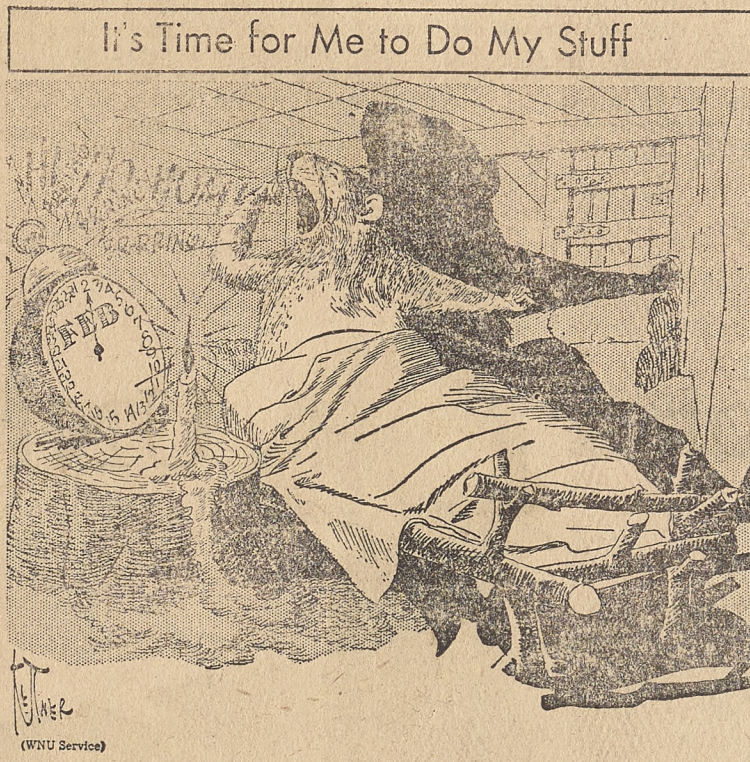

We will have our regular meeting at the Log Cabin on Feb. 14th at 8 p. m. and we will have a very capable speaker who will give us a very fine talk on the thing most people who have children are interested in—our juvenile problem of today.

We have one of the quietest spots in the city and we hope to keep it that way. Let's all be present and support the people that are supporting us. After the experience this chamber has had in the past we find it is absolutely necessary to cooperate with the rest of the city, not buck them, then when we do get something done for our community, praise some handshaking individual for the good deed he has done for our beach.

We can all learn something and gain something by being a member and going to the chamber meeting.

As ever, Lloyd D. Greeson, President

Pvt. Pete. G. Bertram Co. H, 13th Inf. A.P.O. No. 8 c/o Postmaster, New York, N. Y.

## True Saga Of War Everyone Should Read "Queens Die Proudly"

Famous Heroes In Every Chapter

Enthusied in reading that the Ocean Beach News is to run the serial story "Queens Die Proudly" Mrs. B. H. Nielson of 4581 Gran-

anger street, recommends that everyone take the interest to read this wonderful thrilling story of the beginning of war in the far Pacific. Because Mrs. Nielson has a son who is serving under the story's hero, Col. Frank Kurtz,

she has kept in contact with this daring bombardment group and knows there is more fact than fiction in the authentic account of how our heroic airmen saved the day for the United Nations in the Southwest Pacific. Everyone is praising this exciting true story of the gallant crew of a flying fortress, written by William L. White, who also was author of "The Were Expendable" and son of the late William Allen White of the Emporia, Kansas, Gazette.

Lieut. Richard Nielson has just visited his home folks here and left Saturday to join Col. Kurtz who is to command the 364th Bombardment group in a rendezvous yet unnamed.

Lieut. Neilson has recently been promoted to first lieutenant and expects to act in the capacity of group commander over five flying fortresses. He has been with Col. Kurtz the past six months and describes his senior officer as a perfectionist in all that he does. Flying, tennis, or basketball. He expects nothing short of perfection in those associated with him.

In this story just beginning in this newspaper we find Lieut. Col. Kurtz in charge of the "Swoose" which escaped from Clark field in the Philippines on the fatal day when the Japs struck. You find names of the famous Colin Kelly, Buzz Wagner, Lieut. Russ Church, Major Gibbs and many other noted men who are giving or who have already given their lives for their country.

You get the full story in weekly installments for \$1.50 or less by subscribing to the Ocean Beach News at once.

pects nothing short of perfection in those associated with him.

## Vice President Wallace To Speak Here Sunday

"Arrangements being made are quite satisfactory and it is with considerable interest that I will visit your city, one of the most important in the nation's war effort," is the message received from Vice President Wallace by Councilman Charles C. Dail, chairman of the United Citizens Committee sponsoring this event. "Mr. Wallace has indicated he will make a significant talk which should prove of momentous interest," added Dail.

Vice President Wallace will address a public mass meeting at Hoover High school auditorium 44th and El Cajon boulevard, in San Diego, next Sunday afternoon at 1:00 p. m. No admission will be charged and early attendance is urged due to limited seating accommodations. Loud speakers will be assembled outside for benefit of late comers.

Dail stated that the Reception Committee comprises many citizens of San Diego city and county. A delegation of leading Mexican citizens from Lower California will be present. The program includes address of welcome by Mayor Harley Knox, and a concert by the Marine band.

BUY EXTRA BONDS 4TH WAR LOAN

U. S. Treasury Department

At the 1944 census—taken the last week in March, two months before the United States launched the defense program—there were not far from 13 million women in the labor force (including almost two million unemployed women seeking work), and these formed a little less than a fourth of the total labor force and a little more than a fourth of the woman population.

#### On Broad Plain

Teheran, Persia, is situated in a broad plain, 70 miles south of the Caspian sea, at the foot of the lofty Elburz range. Approaching the city from the mountains, it seems to pop out of its flat setting, greeting the eye with sudden, complete revelation. Hot and dry, Teheran is like Arizona in the warm season.

#### Improve Soils

Hard coal ashes, if well sifted, give a distinct improvement to heavy soils. The plants grow faster and to a better size. But when hydrated lime and hard coal ashes are applied together the results are much better than when hard coal ashes are applied alone. Of course, that's only natural since lime not only sweetens the soil, but it tends to give better soil condition.

#### Store Parsnips

Parsnips may be left in the ground over winter, but as digging them out in wet spring weather is apt to be disagreeable, it may be simpler to dig out the roots now and store them in a pit. As slight freezing will not injure them, the parsnips need not be covered as thoroughly as other root crops stored in pits.

#### Army Spectacles

A wide variety of spectacles is supplied to our armed forces. Besides the familiar eyeglasses to correct common defects in vision, found in one out of every seven men in the army, special spectacles and goggles are issued for work in bright sunshine, for watching tracer bullets, for penetrating haze, for use by fliers when confronted with dazzling searchlights or sky beacon lights, etc.

#### Seven Wonders

The generally accepted list of seven wonders includes the Pyramids of Egypt, the Hanging Gardens of Semiramis at Babylon, the Temple of Diana at Ephesus, the statue of Zeus by Phidias, the Tomb of Mausolus erected by his wife, Artemisia, at Halicarnassus, the Pharos (lighthouse) of Alexandria and the Colossus of Rhodes.

#### Japs' Oldest Colony

Formosa is Japan's oldest colony, and one of its most useful. Possession came after the Sino-Japanese war of 1894-1895. Colonization was encouraged; improvements included schools, railroads, telephone and telegraph lines, public works, and aid to industry. Japan's stake is represented by about 300,000 settlers; the rest of the island's nearly 6,000,000 people are Chinese.

#### Hirohito's War Training

It is not generally known that Hirohito was first instructed in statecraft and military science by none other than Admiral Togo, hero of the Russo-Japanese war. From the start of his reign he has always received regular reports from his ministers, and kept up with the news in the daily newspapers published in his own capital.

#### Need Protection

Young fruit trees, particularly apples and pears, need a wire screen protection about the trunk to prevent rabbits from chewing the bark. The trunks may be wrapped in heavy building paper, or in old magazines, if wire is not available. A shovelful of cinders about the base of each tree helps to prevent damage by mice, particularly if the trees have been mulched.

#### Chocolate Money

As late as 1880 cocoa was worth its weight in gold and its beans were still common currency in some communities of Middle America. Aztec treasuries consisted of over-size chocolate bars and the Indians of Middle America never had to worry about misers because their hoarded "coins" would eventually spoil and lose their value.

Released by Western Newspaper Union.

#### FREE SPEECH

##### HOLDS US TOGETHER

THROUGHOUT our more than 150 years as a nation we Americans have constituted an ever-growing family. Not always a happy family but always with a family spirit that would brook no outside interference in our inner family quarrels. We fight among ourselves, get into each other's hair, kick each other on the shins, until a third party attempts to step into the picture on the side of either contending faction, when, as a family, we forget our petty disagreements and unitedly turn on the intruder.

The keystone in our structure of government is our right of free speech. With that right we lam, best, to our heart's content, the acts of those we have selected to govern us. We divide into family factions of those who approve and those who disapprove. We exercise our family right of criticism and our differences are represented by parties between which we divide. Our arguments and fights are a family privilege. They began when the nation began. They will continue so long as our Bill of Rights continues.

So long as these internal arguments and lambasting criticisms represent what each faction believes to be for the best interest of the family as a whole, the family will continue to live and prosper. When either major faction forgets the interests of the whole and centers on the advancement of a minority in the family, when the interests of the farmer, or the worker, or the representatives of wealth, or any other minor faction of the family, is promoted at the expense of the family as a whole, the family will disintegrate and die.

It was such disintegration caused by the promotion of the interests of minority factions at the expense of the whole that so weakened France and caused the French family to fall an easy prey to the Germans. The French family has not yet united against the common enemy. In the face of peril to the whole it insists on continuing its family quarrels. Each faction of the family persists in putting its petty interests above the interests of the whole. Should that continue it will mean the end of the French family.

Should the same thing happen in America, should any one, or more, of the minority factions of the family persist in securing advantages that would prove detrimental to the family as a whole, the American family will disintegrate and die. We can continue to fight among ourselves over ways and means of promoting the common good but, if we are to live, we cannot promote the selfish interests of minorities in the American family at the expense of the whole.

#### STOP SPENDING LEAKS RIGHT AWAY

ALONG IN 1917 and '18 we waited at the terrific cost of war and wondered how we could pay the war bills. We sent up quite a howl about waste and after the fighting was over congress investigated. That investigation demonstrated that, to some extent, our howls had been justified. There had been waste, inexcusable waste.

World War I, from the time we entered it until June 30, 1921, 2½ years after the fighting ceased, cost us the now seemingly insignificant sum of \$25,729,000,000. That, in reality, was but a bit of loose change.

In the present conflict we are spending real folding money. We have been engaged in it for about two years, and have actually spent, as reported by the treasury department, up to August 1 of 1943, the enormous sum of \$110,853,000,000, with an additional 9½ billion paid out by the Reconstruction Finance corporation, which we also pay. To all of that congress has added appropriations of well over 200 billion more that is now in the hands of the spending agencies.

In the expenditure of such vast sums, there is bound to be some waste. It would be well to find the leaks now, and stop them, rather than wait until it is all over, as in World War I. Waiting until it is all over, a 10 per cent leak would mean a loss of a sum equal to the increased taxes the treasury asked. It would take less effort to find and stop the leaks than to induce John Q. Public to dig down into his pockets for another 10 or more billions of taxes. It would also be more appreciated by the voters at the elections of 1944. That was an inducement to congress.

BUYING WAR BONDS demonstrates our faith in the future of America.

WAR CONDITIONS have stopped much of the winter migrations of the Pas and Mas of the northern states farms to favorite vacation spots in the South and West. The armed services or war industries have taken the Johns and Wills of the farms, and the Pas, regardless of the hard labor of the summer and fall, must keep the farm fires burning and the livestock fed through the winter months. Willingly they lay their vacations on the nation's altar of sacrifice that the Hun and the Jap may be defeated.

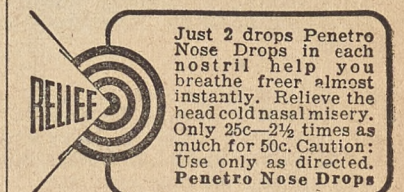

If milk turns sour, make it into cottage cheese. Let it stand until it wheys, then turn it into a cheese-cloth bag and hang up to drain dry.

Did you burn something in a favorite pan? Here's an easy remedy which does wonders. Simply boil apple peelings in it—then wash thoroughly in hot soapsuds.

Place a flat dish under the ash-tray and if a cigarette should fall off the tray it merely drops to the dish instead of on the tablecloth.

Wash off the mud on your work shoes with warm water. Then rub oil or grease into the leather while wet. Stuff the shoes with soft paper to hold them in shape and to absorb moisture from the inside. Let dry where it is not too warm.

If every housewife in the nation saves as little as 2 tin cans each week, it would mean enough scrap steel to make the steel used in the hulls of 3 heavy cruisers, and the tin used in 20 submarines.

Mechanical Christener One of the shipbuilding firms on the eastern seaboard now uses a bottle-swinging machine—which has been nicknamed "Christine"—in the christening of its smaller vessels.

#### "NO MORE TROUBLE WITH CONSTIPATION!"

Says Long-Time Sufferer Who Tried Laxative Cereal!

If you, too, are disappointed with pills and purgatives, be sure to read this unsolicited letter!

"For several years I was afflicted with common constipation. I tried various remedies, but got only temporary relief. Several months ago, I started eating KELLOGG'S ALL-BRAN each morning. Drinking water freely through the day, I have since never had the slightest trouble with constipation. My gratitude to KELLOGG'S ALL-BRAN." Mr. H. M. Brier, 11 E. Division Street, Chicago, Ill.

Scientists say KELLOGG'S ALL-BRAN can really "get at" a common cause of constipation—lack of sufficient "cellulose" elements in the diet—because it is one of Nature's most effective sources of these elements! They work by helping the friendly colonic flora fluff up and prepare the colonic wastes for easy, natural elimination. KELLOGG'S ALL-BRAN is not a purgative. Doesn't "sweep you out"! It's a gentle-acting, "regulating" food.

If you have constipation of this type, eat KELLOGG'S ALL-BRAN or several ALL-BRAN muffins regularly. Drink plenty of water. See if you, too, don't cheer its welcome relief! Insist on genuine ALL-BRAN, made only by Kellogg's in Battle Creek.

Indian Monument Turns A 36-foot statue of an American Indian in the court house at St. Paul, Minn., is rigged with motors and clock work so that it revolves once a day.

You can't see legume bacteria without a powerful microscope. If you could, you wouldn't know whether they were good bacteria or bad. There is one sure way to get plenty of effective inoculation... just ask for NITRAGIN when you buy. NITRAGIN is the oldest most widely used inoculant. For 45-years farmers have used it to get bigger yields of alfalfa, clover, soybeans, and to build soil fertility. It costs only a few cents an acre; but frequently boosts yields up to 50% and more. It pays to inoculate every planting of legumes. Get NITRAGIN where you buy your seed. Look for the yellow can.

The Nitragin Co., Inc., 3299 N. 24th St., Milwaukee 12, Wis.

A JOB for a UNITED America

...and a Challenge to the American System of Free Enterprise!

Pearl Harbor made us a united nation. If we maintain that united spirit we will lick America's Number One job—winning the war.

We must keep this a united nation, too, to meet the problems which will come afterward. The American system of free enterprise—free business and free labor—is meeting the challenge of war. It must be preserved to meet the peacetime challenge of a two hundred billion

dollar post-war debt, and to maintain the American heritage of Freedom.

This American system has brought to free Americans the highest income per person of any people in the world. And only from income can we get the money we will need to pay the cost of this war.

It will be a job of a UNITED America—for agriculture, labor and business, all working together under the leadership of government.

★ ★ ★

Look Americans! Since the beginning of time, the only road to prosperity has been P-R-O-D-U-C-T-I-O-N and exchange of goods and services at a profit—the American system of labor and business.

From it you have earned personal benefits—your home towns have enjoyed increasing advantages—and your nation has become the richest on earth.

#### THE AMERICAN SYSTEM HAS CREATED THESE TANGIBLE THINGS FOR YOU:

- the highest standard of living in the world;
- the accumulation of personal savings and worldly possessions—your schools, your highways, your buildings—your life insurance, your home, your automobile;
- money to pay the cost of government, local,

state and national, including the payment of governmental debt;

And with it, you have the right to think, to speak and to worship as you choose—rights forbidden to millions not living under the free American system.

## BEASTS IN HUMAN FORM

The unspeakable Jap atrocities which have been revealed by some of our fighting men who escaped from the Philippines have shocked and revolted the whole Nation.

We had known, of course, that the Japs were treacherous, brutal and vicious. We had known that they beheaded prisoners of war; that they ravaged women and children in captured cities—and that they had been guilty of almost every crime against humanity which depraved minds could conceive.

But somehow we were not prepared for the horror story of American boys being starved, tortured and wantonly murdered in Jap prison camps.

Every real American boiled with righteous anger as he read of the brutal atrocities committed against our men captured on Bataan and Corregidor. If we were not fighting mad before, we certainly are now—and there will be a day of fearful retribution for the beasts of Japan. We only hope that day is not too long delayed.

## IT'S ALL VERY SIMPLE

If you're getting spots before your eyes trying to figure out how much you owe your Uncle Sam in income tax, it may be comforting to know that even the tax experts are having difficulties.

One confused citizen took his problem right to the Office of Internal Revenue. One expert said he owed \$60, another put it at \$222, and a third said he had a refund coming.

He is backing expert number three!

## BOY SCOUT WEEK

Boy Scout Week which is to be celebrated February 8 to 14, never had a greater significance. This grand organization, designed to train the youth of our land and of other nations in acquiring skill and self-reliance through wholesome outdoor activities and becoming better and more useful citizens, epitomizes the very principles for which the United Nations today are fighting.

It is most fitting that the Boy Scout movement had its inception in England—a nation which stood through the blackest hours of democracy's struggle against the forces of tyranny. There, in 1907, Lord Baden-Powell, operated the first Boy Scout Troop with 20 scouts and himself as Scoutmaster.

It is not surprising that one of the early acts of totalitarian governments was the suppression of the Boy Scouts. Such governments could not stand for a teaching which opposes discrimination by reason of class, color, race or creed.

In its more than thirty years existence in the United States, the Boy Scout organization has been a powerful factor in building better Americans and thereby building a better America. It is this continuing service to democracy which America honors in Boy Scout Week.

## VALUES IN FOOD

Medical service examination records show that about one-third of all draftees in England and America are rejected for causes arising from malnutrition.

This does not mean that these draftees have been underfed, but rather, improperly fed. In other words, they have not maintained a balanced diet.

Time was when we thought the amount of food we consumed determined how well fed we were. But in the last several decades we have discovered that nutritional value in food is more important than mere quantity.

In many European and Asiatic countries where the quantity and variety of food is definitely limited, malnutrition is to be expected. But in the United States there is no excuse for it, since we raise almost every conceivable kind of food and we have the necessary large-scale distribution machinery to move it to market.

Brakes!!

## Unemployment Ahead?

## Babson Says This Is Our Next Problem

Copyright 1944

Publishers Financial Bureau, Inc.

WASHINGTON, D. C., Jan. 28—The general public has been unprepared for the cancellations of war contracts. Exact figures are not known but these must total over ten billions to date. Most affected are companies handling subcontracts. Now faced with overnight cancellations many dislocations occur. Unless new orders of some kind, either for war or peace, are quickly obtained large numbers of workers will be let out. Prime contractors in many instances are now hard pressed to keep their own plants operating. They offer little encouragement to their subcontractors. Washington officials were perhaps wise in not tipping business off for patriotic reasons. Result, however, may be a too sudden transition. This should far better come by degrees.

## Production Fallacies

The War Production Board is calling for a 20% increase in output in 1944 over 1943; but the bulk of this new production will be in airplanes and other specific items. The average reaction to this is that more employment will result and more money will be spent. Thus, it was expected that both profits and payrolls would be maintained. Actually the results will be quite different. Undoubtedly the total expenditures for war work in 1944 will exceed those of 1943. The peak in wartime employment however has been passed. Reason is that once production is underway greater efficiency of operation results. More units of work per employee are performed and fewer employees are needed. The value of the goods produced stays up until re-negotiation occurs. This last wipes out the increasing profit margin resulting from better trained employees and the gradual absorption of initial tooling and other costs.

## Upsets Can Be Lessened

Businessmen need all the time they can get to work out postwar ideas and new production schedules. They are willing to care for fifteen million unemployed after the War; but this they cannot do overnight. Neither will they be able to operate efficiently or profitably under peacetime conditions if still subject to present Government regulation, control and ruinous taxes. Our men at war are fighting for economic freedom and full opportunities for all peoples. Surely our own country should set the example.

Draftees expect and are legally entitled to their old jobs back. If, however, Washington fumbles its postwar plans as it is now fumbling the current domestic economy, these boys may be out of luck. No further time should be wasted in changing, wherever expedient, to peacetime production. Many businessmen have felt that the cancellation of war contracts would be only a postwar problem. It is already in their laps. If the War ended suddenly on all fronts, Washington authorities would immediately cancel seventy-five billions of more orders.

## Character of Government Planning

Most of Washington's present postwar planning is in the nature of social security benefits and public spending. It will be up to the voters to decide what kind of a postwar era they want. They should elect to office, from the bottom up, men and women conscious of the part that business has played in bringing about the defeat of the Axis Powers. This same business group is capable of winning the domestic battle for a profitable peacetime economy in Washington will let them.

For political reasons there is a lack of any definite statement at Washington as to what is to be done to help businessmen re-sup-

ply the millions who are being discharged as war contracts are cancelled. The White House apparently has lost all interest in the people of the United States. Besides, too many in Washington fear that if they relaxed their present harmful controls over business and employment, then there would be no Washington job left for them! They would have to go back home and earn an honest living! This they dread to do!

## Encouraging Factors

Political parties, bureaucracies and government controls can do much to help or discourage employment by their treatment of business in general. Therefore some show of understanding and straightforward consideration of manufacturers' and other businessmen's problems is overdue from Washington. Certainly I do not see how many Democrats (other than the President himself) can expect re-election next November with the country flooded with unemployment.

Yet such unemployment is not necessary. Farmers will be prosperous during 1944 and will constitute a ready market. Civilian goods shortages should help small businesses if the bureaucrats would only use a little common sense. Programs for the re-establishment of residential construction should at once get underway. The railroad equipment business should be encouraged. Money rates will remain low and abundant credit will be available for those justified in seeking it. As the end of the war draws nearer, opportunities will arise in foreign trade, travel and in the peacetime business. Yes, 1944 can provide much useful and profitable work if Washington and the labor unions would only help in pulling the cart instead of tying the wheels.

Tax Collector's Office  
Digs Out Old Receipts  
For Waste Paper Drive

Thousands of yellowed old tax receipts, many of them dating back to 1891, were consigned to the newspaper-sponsored U. S. Victory waste paper drive today by County Tax Collector Sam Claggett.

The boxes brimming with the tax receipts and other old out-of-date records will be moved out of the tax collector's basement in civic center today by the civilian defense council's war salvage committee, in charge of the drive which will continue through Feb. 15.

The space is being made available to the U. S. Navy, Claggett said.

"These records have been accumulated during the past half century, and are now no longer required for our files, since they have been duplicated on our tax rolls," Claggett said. "They certainly will do the county no good, but perhaps they will serve to relieve the serious national paper shortage. I am glad to see them go on their way to the paper-consuming war factories. Many other offices doubtless have similar obsolete records, which could well go for their meritorious purpose."

A hasty examination of the boxes marked 1891-92-93 and in that decade revealed the names of some of the city's great of that period, including Charles Hardy, who was known locally as a power in politics for many years. The names of the taxpayers were written in a delicate, spencerian hand, since typewriters, of course, were not in general use in that time, Claggett said.

Meanwhile, a paper lot has been located at the foot of Second st. for those citizens who wish to take their bundles there in their cars. The waste paper headquarters is M-9070.

## Relief In California Drops Gradually

Continued improvement in the relief problem in San Diego county is shown by decreasing numbers of people receiving all types of relief except aid to the needy aged, California Taxpayers' association stated this week, making public its study of relief trends in California counties for the last six months of 1943.

In December, 225 people in the county were receiving aid as needy blind, compared with 237 for the July preceding, the association found.

In December, 781 children were receiving aid as dependent children, compared with 792 in July.

In December, 681 were receiving aid as county indigents, compared with 749 in July.

On the other hand, in December, the old age rolls numbered 7,202 while in July 7,200 were receiving aid to the needy aged. Increase in amount of aid and decrease in legal requirements for care of old people by their relatives were both in effect throughout the period, the association stated.

Over the state as a whole, persons receiving aid as needy blind totalled 6,360 in December and 6,649 in July. Dependent children numbered 20,275 in December and 22,404 in July. County indigents numbered 20,068 in December and 22,151 in July. Needy aged persons numbered 157,746 in December and 152,220 in July.

Pointing out that relief is administered by the county governments, the association said:

"So long as employment continues at a fairly high level, relief rolls should continue to fall off."

"Budgets of county governments for 1944-45, soon to be under way, should reflect the lessening need for relief in California. Any carry-over in funds set up for relief for the current fiscal year should be carefully kept for tax reduction purposes for 1944-45."

## Your Spare Bedroom Needed by U.S.O.

Service men's relatives who visit them here always find it difficult to get a place to sleep and the Ocean Beach U.S.O. has many more calls for these accommodations than they can fill.

You will be doing a real service to these men and women if you leave your address or phone at the Ocean Beach U.S.O. whenever you have a vacant room—even though it be temporary. There is always someone who needs a place to sleep.

### The Job Ahead

By Rufus T. Strohm

Dean, International Correspondence Schools

Rufus T. Strohm

AFTER the war, more than ever before in our history, industry and business will need men and women with specialized knowledge and technical skills. A speaker at the recent meeting of the American Vocational Society in Chicago predicted that within a few years America would need twenty times as many technicians as we have today.

Our plant facilities have been greatly increased to meet the demands for war materials. To maintain capacity production in peacetime will require technicians able to convert the plants to a different type of use and to develop the manufacture of completely new products. This work will call for broad basic knowledge and for technical skill of the highest order.

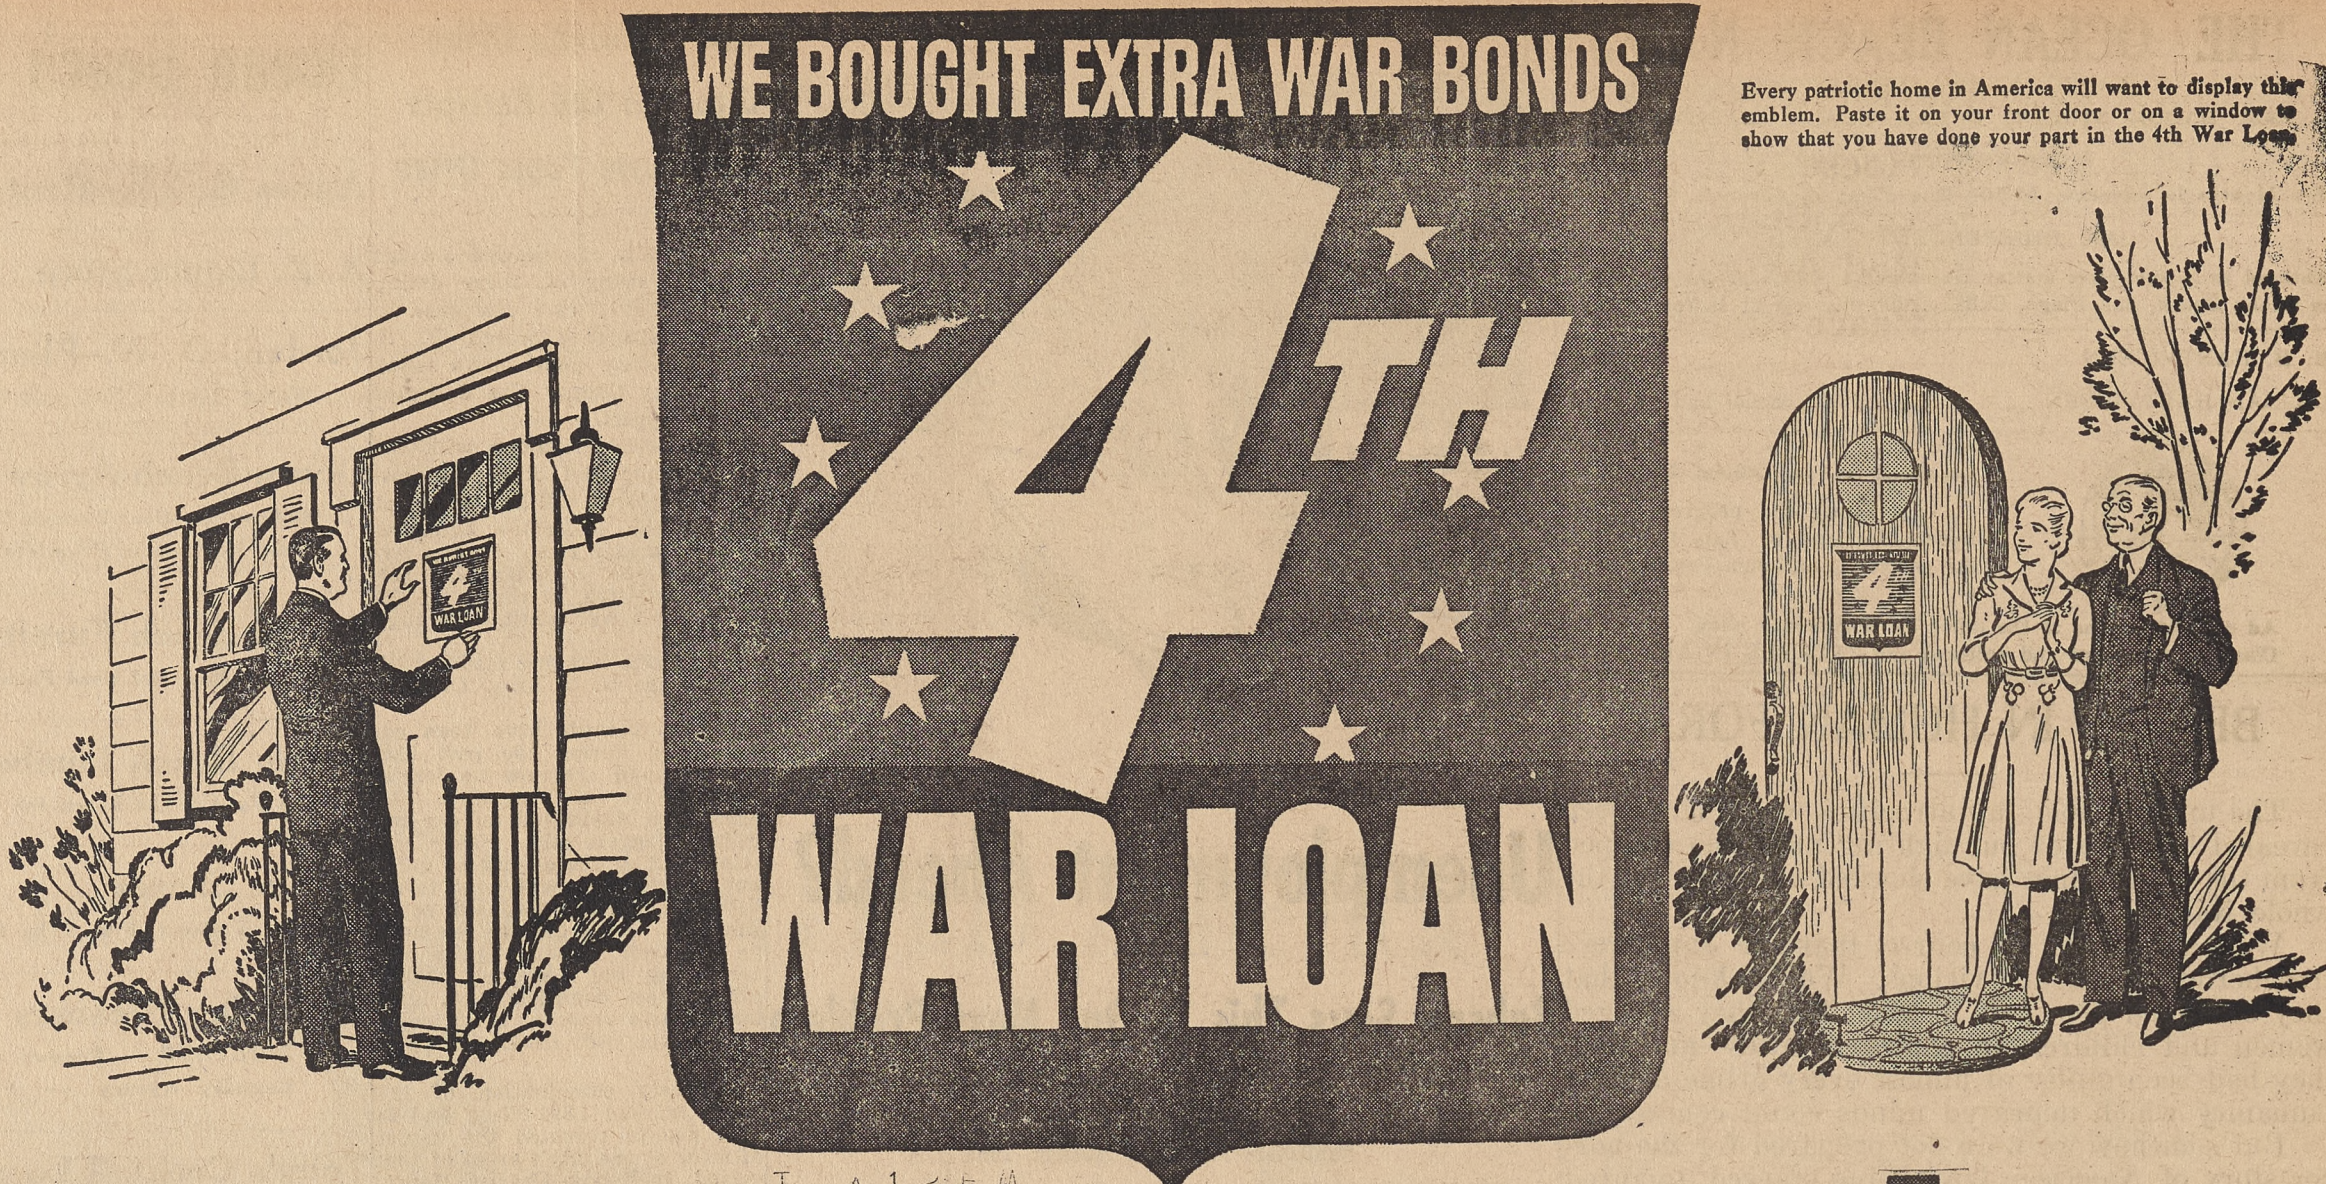

Much of the technical advance which this country has made during the war has been shared with other nations or duplicated by them. In the competition for world markets when peace comes, therefore, we shall have to rely upon our technicians for fresh and continuing advances, if we are to hold our world leadership.

Furthermore, we must have enough of them to train the men released from the armed forces into skilled workers who can be absorbed by the mechanized industry of tomorrow.

For these reasons, the postwar prosperity of the nation will depend in great measure upon men with technical "know-how"—both upon their ability and upon their number.

That means something personal to every worker. What you do with the job you have now will determine the job you have ahead. This is true at any time for you as an individual, but it is true now in an added sense for you as an American.

The job ahead for you—the job for which you can now be fitting yourself if you wish—is a part of the job ahead for your country. How well you are able to do your part will help determine whether this nation wins or loses the peace.

Every patriotic home in America will want to display this emblem. Paste it on your front door or on a window to show that you have done your part in the 4th War Loan.

# Display your colors

Every patriotic home in America will want to put up this emblem!

THIS emblem is a symbol of your patriotism. It tells the world that you have done your full share in the 4th War Loan. Every true American will be proud to display it at home.

Our valiant fighting men... soldiers, sailors and marines... on every far-flung battlefield are on the attack... forging ahead steadily, relentlessly. Nothing on earth can stop them... IF WE BACK THEM UP!

Backing them up means throwing every dollar we can possibly spare into the fight right now... even if it takes sacrifice on our part.

That's the purpose of this 4th War Loan Drive.

To earn the right to display the 4th War Loan Emblem you must invest in at least one EXTRA hundred dollar Bond (at a cost of only \$75)... over and above your regular War Bond subscription. But don't stop with one! Invest in all the extra Bonds you think you can afford... then invest in some more!

Remember, every dollar you put into War Bonds does double duty. It helps to win the war... and at the same time it insures your own financial security.

Here, too, is a chance to help your company meet its quota in this 4th War Loan.

Maybe this will mean sacrifice on your part. Maybe it will mean doing without something you want. But don't forget... while you are only lending a few spare dollars... thousands of our gallant fighting men are giving their lives for you! Show that you're backing them up 100%. Invest in extra War Bonds to the limit of your ability. And display the 4th War Loan Emblem at home!

## BUILD YOUR FUTURE WITH THE WORLD'S SAFEST INVESTMENT

All over the country men and women look to the future with confidence. They are the ones who have put part of their extra wartime earnings into the world's safest investment—U. S. Government War Bonds.

Yes, they are helping their country in its grimmest struggle. But they are helping themselves, too! They are helping to secure their future, to weather any troubled days that may lie ahead.

What about you? Are you letting the dollars slip through your fingers—dollars that should be put safely away in War Bonds?

There are War Bonds to fit your needs... Bonds that are backed up by the strongest "company" in the world. Build that home you have always dreamed about. Send your child to college. Buy the wonderful things that are coming after the war. YOU CAN DO IT WITH YOUR WAR BOND SAVINGS.

# Let's All BACK THE ATTACK!

## Hobbyhorse Toddle Bike Is Easily Made

THIS horse head is a copy of an Early American hobbyhorse. It is full of dash and spirit yet it is so simple that the original craftsman probably cut it out with an ordinary handsaw and a pocket knife.

A toddle bike is more up-to-date than a hobbyhorse because we know now that it is better for tiny

tots to learn to use their legs than to get a sense of motion by rocking. The bike is easy to make of scraps of lumber; or when you have cut out the head and stenciled it you may decide to mount it on a broomstick as shown at the upper left.

NOTE—Mrs. Spears has prepared an actual size pattern (No. 257) for this authentic Early American hobbyhorse head and also all the parts of the toddle bike. The pattern includes stencil designs for painting, a color guide, and complete directions. Pattern is 15 cents postpaid. Ad dress:

**QUINTUPLETS CATCH COLD**

It promptly relieves coughing and makes breathing easier  
Whenever the Dionne Quintuplets catch cold—their chests, throats and backs are immediately rubbed with Musterole. Musterole gives such wonderful results because it's MORE than just an ordinary "salve." It's what so many Doctors and Nurses call a "modern counter-irritant." It actually helps break up local congestion in upper bronchial tract, makes breathing easier, promptly relieves coughing, sore throat and aching chest muscles due to colds. Get Musterole today! IN 3 STRENGTHS: Children's Mild, Regular and Extra Strong.

**MUSTEROLE**

**SNAPPY FACTS ABOUT RUBBER**

A Wisconsin truck driver recently received a tribute from the Office of the Rubber Director because he risked his life to save the tires on the trailer of a tractor-trailer unit he was driving. The trailer caught fire, but the driver jacked it up and removed the tires while it was ablaze.

The far-reaching influence of the rubber situation will be appreciated when it is known that close to 40% of the motor vehicles ever made in this country were still in service in December, 1941. More than half of them were owned by families with incomes of less than \$30 a week.

## WEEKLY NEWS ANALYSIS

### House Votes \$300 Discharge Bonus; U. S. Bombers Rip Nazi Supply Lines; Red Army Continues Push on Baltic; Peace Rumors Spiked by British Press

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)  
Released by Western Newspaper Union.

#### DISCHARGE PAY: House Votes \$300

Arguing that higher payments would represent a soldier's bonus which should be left for later discussion, the house passed a bill providing for mustering-out pay of \$300 to discharged vets with 60 days' service and \$100 to those released before 60 days.

With 15,000,000 vets including those already discharged standing to benefit from the measure, total cost of payments was estimated at 3½ billion dollars.

After passage by the house, the bill was sent for approval to the senate, which previously enacted legislation providing for maximum payments ranging from \$500 to vets overseas for 18 months or more, to \$200 to those with less than 12 months' service in the U. S. Unless the senate okayed the house bill, parliamentary procedure required the two chambers to get together to work out new legislation.

#### EUROPE: Pound Supply Lines

U. S. bombers ripped rail lines supplying German troops in southern Italy as American and British forces pressed against the Nazis' winter-line centered on Cassino, key to the road to Rome.

With two of three main rail lines temporarily put out of use, the enemy was forced to route supplies over bomb-pocked highways, some of which were snarled by the wreckage of bridges.

As U. S. artillery laid down a curtain of thunderous fire over German defense emplacements before Cassino preparatory to the infantry's charge forward, British units to the west engaged Nazi troops along the Garigliano river.

Along the Adriatic coast to the east, Canadian forces were held to short gains in hard, close-in fighting.

#### U. S. HEMP: Cut Production

Because of the improvement in imports from the Caribbean and Mediterranean areas, the government's hemp-growing program in the Middle West will be cut to one-third of 1943 production, and only 14 of 42 processing plants will be kept in operation.

Raised on contract to the government, farmers found hemp profitable last year, their net yield per acre being larger than from any other crop in the nation, in some cases reaching \$200, it was said.

In seeking to relieve a threatened hemp shortage after the outbreak of war, the government undertook construction of processing plants in 42 communities, and arranged for farmers to grow 4,000 acres of the fiber in each of the districts. The plants were erected at an estimated cost of \$100,000 each.

#### LABOR DRAFT: Pro and Con

While Secretary of War Henry Stimson told a senate committee that a labor draft would equalize soldier and civilian sacrifices, the executive council of the American Federation of Labor, headed by William Green, said that the organization would never surrender the basic freedom of the country's workers.

Likening a labor draft as a shot in the arm for the nation's patriotism, Stimson said the first flush of enterprise excited by the Pearl Harbor attack has worn off, and now "the stern voice of law" is needed to "keep up the patriotic emotion."

Declaring that in freedom there is strength, the AFL council asserted that the "amazing speed with which free American workers have won the battle of war production against the enemy within two years upholds the truth of that principle."

Chance for passage of the labor draft dwindled with the house's pigeon-holing of the measure.

New Britain—Marines wade through swampland on New Britain front. (See: Pacific Front.)

#### PACIFIC FRONT: MacArthur to Stay

U. S. medium and heavy bombers ranged widely over the Pacific, blasting Jap bases supplying hard pressed enemy troops, and hitting installations and airfields in the strategic Marshall Islands.

As U. S. armies were pinning the foe back in the South Pacific area, Secretary of War Henry Stimson announced in Washington, D. C., that General MacArthur would not be retired when he reached the age of 64 on January 29. Retired at his own request in 1937, MacArthur was recalled to active duty following the outbreak of World War II.

In New Guinea, U. S. bombers smashed at the Jap base of Wakwak, above American positions at Saidor; and in New Britain, explosives were dropped on the big feed center of Rabaul, and on barges carrying supplies along the island coasts.

#### RUSSIA: Baltic Push

Preceded by a thunderous barrage of heavy artillery, Russian infantry pushed into German lines below Leningrad, and cut the enemy's rail communications farther to the south, 70 miles from the Latvian border.

The Reds were reported to have thrown 250,000 men into the battle on a 250 mile front, and units of Russia's Baltic fleet stationed near Leningrad were said to have participated in the bombardment of German positions prior to the big push.

Stiffening German resistance slowed the Reds' progress on other fronts, with the Nazis reporting continuance of Russ efforts to break through in the prewar Polish area of White Russia.

#### Peace Rumors

With the Allied world still wondering over Russia's semi-official publication of a rumor that two former British statesmen had discussed a separate peace with German Foreign Minister Von Ribbentrop, Stalin permitted reproduction of a London newspaper's story that Britain had received specific peace terms from Hitler under which the Nazis would withdraw to their 1939 prewar boundaries.

Although Britain remained indignant over the Reds' implication that she was double-dealing, and the U. S. continued puzzled over why Stalin should have allowed publication of the rumor, Russia's man in the street was led to suspect British intentions.

#### AIRPLANE PROGRAM: Bigger Types

No. 1 industry of the U. S. today, aircraft plants will set their sights on production of more than 100,000 planes of heavier weight in 1944.

More than 50 per cent of production will be of combat-type planes, with a decrease in output of trainer and obsolete craft. Facilities now being used to turn out the latter two types will be converted to manufacturing parts for other models.

The swing toward heavier planes marks a trend toward production of craft carrying bigger guns and bomb loads. Total weight of planes is expected to approximate 1 billion pounds, compared with 750 million pounds in 1943.

## HIGHLIGHTS . . . in the week's news

**SPRINGS:** Now that the government has released a quantity of steel wire for springs, it is expected that furniture with coils can be coming out of the factories within two or three months.

**DEBT:** National debt of Great Britain amounted to 77 billion dollars on December 31, the chancellor of the exchequer has reported to the house of commons.

**PLASMA:** Use of blood plasma has reduced deaths among wounded men to three-tenths of 1 per cent in the Pacific area, a naval surgeon recently returned from the front said.

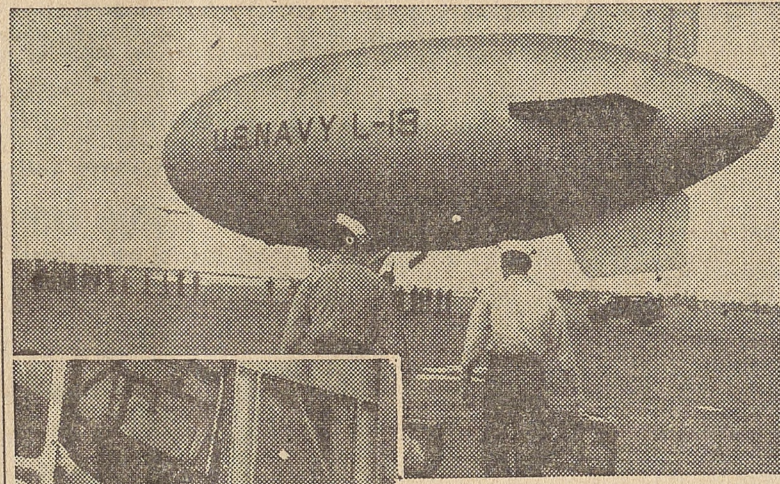

**HOUSING:** War ravaged Europe will require construction of at least 100 million homes, it is said. In the United States from 15 to 20 million new housing units will be needed in the next 10 years.

## Feathered Gobs

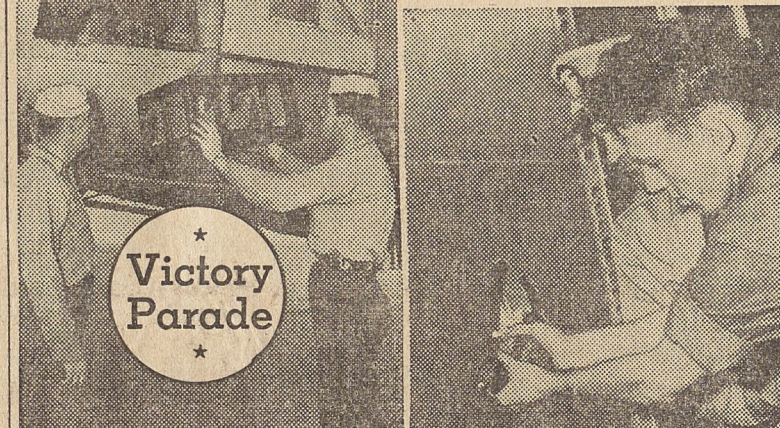

When accidents, mechanical failure, or the presence of enemy craft silence radio activity, our navy has another dependable means of wireless communication—homing pigeons. These birds, guided unerringly by instinct, have been released as far as 500 miles from the home station. Their average speed on a flight home is 50 miles an hour.

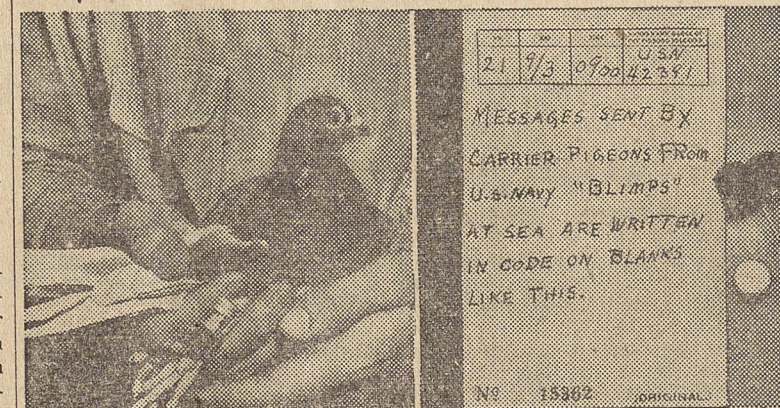

In top picture a flock of pigeons is released far out at sea for a practice flight to the Homing Pigeon service at Lakehurst, N. J.

Above: Two crates of pigeons are carried to a blimp about to leave on anti-submarine patrol duty.

The pigeons are placed aboard the blimp. Our navy breeds its own birds for the dispatch carrier flock.

Messages are fastened to the bird's leg with a tiny leather strap as is shown here.

Seaman Don Adams feeds his feathered mates. He is a bird lover with the ideal job.

When holding the bird, the attendant gently but firmly gathers in wingtips and tail so bird cannot be hurt if it struggles.

**BRITISHERS THOUGHT EARLY U.S. TERRIFYING EXPERIMENT**  
The Britisher who visited the United States during 1858-60 believed the American male did little but spit tobacco juice and race boats upon the Mississippi at an inhuman speed, according to Max Berger in a study, "The British Traveler in America."

Thousands of Britishers came to this country during this period in much the same frame of mind as the Americans who now visit the Soviet Union. Nearly 250 of them published accounts of their travels. They believed democracy a great and perhaps terrifying experiment, and America the system's chief exponent.

Adding to the basic alarm over socio-economic differences were surprise at the quantity of tobacco consumption and the habit many Americans had of permitting servants to sit at table with their masters. This fraternizing between servant and master seemingly horrified the Britisher of Tory instincts much more than finding slavery existing in the southern states.

The English travelers' accounts of "the face of things" during the early 19th century showed that opinion differed as to precisely why the United States was prosperous. The liberal Britisher declared: "The democratic system is the answer . . . the greatest and most important fact of the century." The conservative replied: "They're rich because of natural resources—they can't help themselves."

**Army Using Wood**  
The army alone is using more than 800 separate items of wood.

## Ocean Beach U.S.O. Man And Youth Activities Reported Die As Car Goes Over Cliff Here

The many activities of the Ocean Beach U. S. O. club are fully appreciated, according to the yearly report of San Diego County clubs, contained in their annual summary, which says of our local unit:

Ocean Beach U. S. O.—The dedication of this club which took place August 15, was most successful. The boys enjoyed bathing facilities, swimming trunks are available as well as towels and a checking service. A small dance floor with a music box, a pool table donated by the Chamber of Commerce of Ocean Beach, a lounge, writing balcony, canteen, information desk, and two cots for rest periods, cover practically every need.

The club is a purely volunteer operation, and is open every day of the week. Senior hostesses operate on three-hour shifts in taking care of the desk, swimming facilities and similar services, thus leaving the junior hostesses free to mix with the boys on the floor. Hostesses are carefully selected, references being required, and operate on a temporary card until their desirability is completely established. The permanent cards are revokable if a rule is broken.

A Halloween dance, with orchestra music, featuring numerous Halloween stunts and Halloween decorations with pumpkin pie and cider as refreshment drew an attendance of 184. Special dances were also held Thanksgiving and Christmas, the former doing a repeat on the pumpkin pie and cider, and the latter having appropriate decorations including a Christmas tree, and gifts for every boy present which had been contributed by local merchants. About 300 boys were entertained on Christmas.

Housing is an important service. Many service men's wives, mothers, and other relatives are housed by individual members of the club group. An amusing story is that connected with a young sailor, evidently a real home boy, who enjoyed staying in private homes as often as his leave permitted. Every weekend, for many weeks, he stayed with a Mrs. Jones, a navy mother. One evening he left this note in the housing bureau desk, "My dear Mrs. Greeson, please save Mrs. Jones for me Saturday night.—Charlie."

Mrs. Grace Greeson has been awarded a large silver pin in recognition of her serving 1,000 volunteer hours since the opening of this club.

WAR BONDS . . . your way to back your country's attack!

### Dana Junior High Parent-Teachers Meet

February 10, next Thursday, is the date of the next meeting of the Dana Junior High Parent-Teacher assn. meeting which will be a Founders day tea to be held at 1:30 p. m.

Mrs. Mildred Hale will be the guest speaker. Interesting demonstrations by the social and science classes will be given.

### Popular Fiction At Ocean Beach Library

The Ocean Beach library has received an interesting order of popular fiction:

Anchorage—Bassett.  
Tomorrow is Forever—Bristow.  
Johnny Tremaine—Forbes.  
Promises—Buck.  
Merrivales—Colver.  
Murder in Havana—Coxe.  
Anger in the Sky—Ertz.  
Case of the drowsy mosquito—Gardner.

Also The Hills—Keyes.  
Grand Parade—Lytton.  
O, River Remember—Ostenso.  
Daylight on Saturday—Priestley.

Tree Grows in Brooklyn—Smith.  
Indigo—Weston.  
Keeper of the Flame—Wyler.

Roy H. Rogers, 43, 4546 Bermuda avenue, and Robert Donald Cooper, 17, 4972 Santa Monica avenue, were killed, it is believed instantly, when their car left the roadway on Sunset Cliffs Blvd., near Adair street, and plunged over a 45-foot embankment, early Friday morning, January 28th.

The bodies were recovered and identified by Police Lifeguard Al Penwarden, assisted by the Ocean Beach fire station crew.

The accident was discovered when Leta May Burns, of 4457 Monaco st., a street railway company bus driver noted the broken guard rail and phoned the Ocean Beach police sub-station.

Rogers was the husband of Lillian Rogers; father of Howard Rogers; brother of John Rogers, D. W. Spellman, Mrs. Elizabeth Pipes. Interment, Inglewood Cemetery, Los Angeles.

Young Cooper was the beloved son of Ralph F. Cooper and Grace Vermeulen; brother of Mrs. Margaret Isbell, Mrs. Melba Brick, Mrs. Geraldine Kelly, Ralph F. Cooper, Jr. Services in the Chapel of the Ryan Mortuary, Monday afternoon, 2:30. Interment in Greenwood Cemetery.

### High Scholl Play Postponed To Feb. 10

"Ever Since Eve", three-act comedy of youth, which had to be postponed because of illness in the cast at Pt. Loma High school, will be presented on Thursday, February 10th, 7:30 p. m., Pt. Loma High auditorium. Friends and patrons are most cordially invited to attend this delightful play which deals with the problems that beset a lively group of young high school students in their journalistic careers.

Those appearing in the cast include Thomas McGee, Betty Dixon, Phyllis Lantz, Charline (Sherrie) Glick, Jay Timmons, Jon Kowal, Harry Shannon, Darline Ibrag, Genia Sprinkle, Tom Royal, and Milton Reynolds. Wilberta Jarrard and Colleen Cooksey are student directors. Students in the stage design class under the direction of Miss Willa B. Brodie have created, constructed, and assembled the stage set for the play.

A particular feature of the evening's program will be the Pt. Loma string ensemble in a musical program under the direction of Edward Janowsky. Yvonne Gerson, business manager, urges that you who have purchased tickets already bring some friends with you for this evening of real joyous entertainment. Ushers for the program will be advanced drama students Rita Bouteiller, Dorothy Hudson, Jane Price and Mary Rimell. The attractiveness of the lobby will be

### To the People of this Community YOU ARE IMPORTANT

There is no such thing as a "little" investment in the Fourth War Loan.

Your \$25 or \$50 or \$100 Extra War Bond may not have great importance in your mind in making up a 5% billion dollar total for individuals.

But multiply yourself by 130,000,000 and then you see in real perspective how truly great each citizen becomes in making national strength against the Nazis and the Japs.

Capt. Maurice Witherspoon, Navy chaplain aboard the Carrier Wasp when she sank, tells of a rescued wounded sailor, who, as he regained consciousness, asked: "Did I do my best?"

That's the only question you, too, have to ask yourself when you decide the extent of your personal participation in the Fourth War Loan.

There undoubtedly will be large single purchases of War Bonds in this community, but yours—if it is "your best"—will deserve equally the red, white and blue shield you are privileged to display in the window of your home.

So "Let's All Back the Attack."

THE EDITOR.

## Enthusiastic Speaker Interests Kiwanians In Prominent Men

To tell interesting anecdotes of one's life in an enthusiastic manner, is the way MacLean Wilson, prominent Kiwanian, held interested friends to a full half hour of reminiscing enjoyment Tuesday evening. Myron Insko was program chairman.

Mr. Wilson told of his visits to many nations over the world as a worker for Britain's bureau of animal husbandry. As a boy he accidentally ran into Secretary Hayes, then had the pleasure of a formal introduction to this gentleman a few days later in the presence of his father and President McKinley. Other prominent people named in his acquaintance was Eugene Debs, famed socialist; Billy Sunday, noted evangelist; Lord Brookfield of England whom he met in Australia; Mr. Brett and Lord Dunham in Sydney; King Albert and family of Belgium; and on a visit to a prominent Catholic friend in Rome he also had the pleasure and honor of living a few days at the Vatican and of meeting his holiness the Pope.

Next Tuesday the Kiwanis club will be hosts to troop 28 Boy Scouts of America at a dinner served by Point Loma Methodist church women, the event being in honor of Scout Week.

Private Charles Samson of the coast artillery from Fort Rosecrans was military guest of the club, Rev. Philip Harris a guest of Heber Hartvigsen, Fred Dunn a guest of Martin Murphy, J. Shoemaker a guest of Burritt Mills and J. C. Thompson a guest of his son-in-law, Daniel J. C. Smith.

## The Red Cross In Ocean Beach

By ONA E. PITCOCK

"God keep them close within thy loving care:

God help them win their high and glorious goal

Of peace for all mankind— This is our prayer."

This week's tragic news has almost flooded us, let's all pull together to win the war as speedily as possible. Many of our loved ones have gone on but oh so many in our hospitals and at the front need our help. We must all work together to make it as easy as possible for those who are doing so much for us.

The Red Cross began as an idea today it is an ideal and it goes where your boys are fighting. It is the only means by which we can get them the necessities and the little comforts to cheer them along.

We have knitting and sewing at the Red Cross Center, 4769 Del Monte ave. Also we have a gift box where you can drop a game, a book, a package of cigarettes or anything that can be given our boys who have to lay on a sick bed in our hospitals. They get pretty low in spirits some times. Life does not look very bright when you are crippled or blind.

Call T-7704 and give your blood to save a life. Don't let our boys down in any way. Buy bonds until it hurts. Give our boys everything to help them win this war and come home.

Remember to go to surgical dressings at the Marine Base or Loma Portal. Go to gate No. 3 at the Marine Base on Monday, Tuesday, Wednesday or Thursday from 9:30 to 10:30 or from 2:30 until 3:30. This gate is open for Red Cross workers only.

Don't forget that Tuesday is cookie day. We have many letters from the boys telling us how they are enjoyed. One boy said they were just like his mother made and would we please send a box to his brother in the Pacific.

Please call B-5639 and get sewing or knitting or bring cookies or a present for our present box. The boys have birthdays and a present is drawn from the box by them. I know every woman on the beach will do her part.

the efforts of students in art structure and lettering classes.

Remember the date, Thursday, February 10th, "Ever Since Eve", Pt. Loma High school auditorium.

KRAFT'S DRUGS

W. L. White, author of THEY WERE EXPENDABLE, has written a superb story of our fighting men in the air, QUEENS DIE PROUDLY. It is the story of a Flying Fortress crew in the terrific air action that began in the Philippines and continued its explosive course from island to island southward through the Pacific. It is the greatest war story to date.

## Civilian Defense --- DOROTHEA F. MILLER B-3066—District 7

San Diego, Calif. January 14, 1944

Mrs. Joseph Miller 4645 Saratoga St. San Diego, 7, Calif.

Dear Mrs. Miller:

May I express grateful appreciation to you personally, and through you to all of your leaders for their 100 percent cooperation with the Women's Division, Civilian Defense Council in providing Christmas boxes, cards, tree decorations and special gifts for men on ships and transports.

The project was a magnificent success because of the fine spirit of your women in undertaking and completing the work, and giving so unselfishly and unreservedly their gifts, their time, energy and effort to the cause. Thousands of boys were made happier because our women made their Christmas less lonely.

Of the 17,000 boxes provided the Red Cross gives credit to the Block Plan women for contributing the majority. The Red Cross is generous in its praise of our Leaders for the beautiful wrappings, and for the number of gifts which filled each box, and would like to thank each woman separately if that were possible.

As your chairman of the Women's Division, Civilian Defense Council, I am sending each one of you my sincere affection, and deepest gratitude for your unfailing loyalty and service to the call made upon you and your leaders, a responsibility you accepted so willingly and cheerfully.

May I also thank you for your ready response to the clothing drive. Through the efforts of the Block Plan, two warehouses were filled with good clothing for war impoverished people of the liberated countries.

Please know how much your services are appreciated and how much this office wishes to be of assistance to you and your district at all times.

With kindest regards and best wishes for your continued success.

Faithfully yours,

Mrs. David A. Fraser, Chr.

Women's Division, Civilian Defense Council.

The Red Cross has assured us that they will start a class in home nursing as soon as we send in the required number of names. This is your opportunity to get training that will be of lasting benefit to you, besides answering your county's call. You know the goal is a home nurse in every home.

We are happy to report that Mrs. C. R. Brooks, is recovering from a serious operation. It was Mrs. Brooks' block that sent in 17 Christmas boxes. She has received two letters of thanks, one from San Clemente, the other from Solano Beach. One of the boys said his box was the prettiest at the station.

Mrs. Jas. G. Leadbeater, sector leader of "K", has been appointed assistant district leader.

Mrs. Edw. E. Hanzlik, 1586 Ebers st., is the new sector leader in "J". Mrs. Hanzlik replaces Mrs. Edw. A. Stivers, Jr. who will continue as block leader.

Miss Beatrice Simpson, a representative of the Civic League of Women Voters, will speak on the "Privileges and Responsibilities of Citizenship", at the meeting to be held Monday, February 7, at 1:30 p. m. at the Assembly of God Church, Cape May and Ebers. This is a district meeting. Everyone is invited.

WAR BONDS . . . buy them first—then buy what you need.

## CHRISTIAN SCIENCE CHURCHES

"Spirit" will be the Sunday Lesson-Sermon subject in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston. This statement of Paul to the Galatians is the Golden Text: "We through the Spirit wait for the hope of righteousness by faith." In a selection from II Chronicles Jehoshaphat is told "There cometh a great multitude against thee from beyond the sea on this side Syria; . . . And Jehoshaphat feared, and set himself to seek the Lord. . . And said, O Lord God of our fathers, art not thou God in heaven? and rulest not thou over all the kingdoms of the heathen? and in thine hand is there not power and might, so that none is able to withstand thee?" And the Lord said through Jahaziel, the Levite, "Be not afraid nor dismayed by reason of this great multitude; for the battle is not yours, but God's." In the battle that followed singers "went out before the army" and their enemies "were smitten." In "Science and Health with Key to the Scriptures" Mary Baker Eddy says, "To have one God and avail yourself of the power of Spirit, you must love God supremely." "The central fact of the Bible is the superiority of spiritual over physical power."

## VICTORY'S SONS

THEY had laid their eggs on Lecce, Italy, all right, but a shell from a Messerschmitt had crippled their Liberator bomber on the return trip, and the big plane had fallen into the sea near Malta.

Four crawled out, but the two others didn't stir. Lieutenants Wilmer Garrett and Carl Johnson had been knocked unconscious. The co-pilot, Lt. Robert Lennhausen went back in and dragged them out, and put them into the rubber raft. They tried to row away. But something was wrong. A tangled rope was holding the raft to the plane, now ominously low in the water. In a few moments it would go under, dragging the life raft with it . . .

They searched feverishly for a knife. No one had anything that would cut. Suddenly, Lt. Lennhausen leaned forward and began chewing the hard manila rope. He could see the plane going, going . . .

Just in time, he did it. "It probably took two minutes to chew the rope in two," he grinned later. But all five others of that crew owe their lives to the quick thinking and strong jaws of Lt. Lennhausen.

W.N.U. FEATURES

THE STORY THUS FAR: Lieut. Col. Frank Kurtz, who was pilot of the grizzled old Flying Fortress known as "The Swallow," which escaped from Clark Field, tells of that fatal day when the Flying Fortress, its struck down before it can get off the ground. Later, Lieutenant Kurtz bicycles to the scene of the bombing. He finds Old 99 a pile of junk. He sees eight boys of his crew—his boys—lying in an irregular line. They had been killed as they ran for shelter. He counts them, pats each on the back, and talks to them as if they were still alive. Then he goes to where Tex is lying, at the end of the sprawling line, and makes a promise.

## CHAPTER II

"We weren't licked; it was only the beginning, and from now on we would get to work, all of us, and win. I told him that whatever plane they gave me later, Old 99 would be flying right in the formation, and on night missions I would always see Old 99's wing lights beside me, and know that she was protecting me with her crossfire, knocking down Zeros that tried to climb onto my tail. Yes, maybe that's where the story begins.

"The 19th Bombardment Group consisted of thirty-five beautiful shiny new Flying Fortresses, of which Old 99 was one—we had picked her up at the Boeing factory just before she came off the line. Of the Fortress series, they were D models—then the latest and finest in the business. About a dozen of our thirty-five were down at Del Monte Field on the southern island of Mindanao. The rest were at the main bomber base, Clark Field, about forty-five miles from Manila, which was the headquarters of General MacArthur, the Commander in Chief. Our immediate Air Corps commander, General Brereton, was constantly visiting us at Clark.

"On November 27 General Brereton put us on the alert. He had received the same State Department warning they got at Pearl Harbor—that war might be days or maybe hours away. Within the limit of what we had, the Air Force was ready for it. The General was making all the reconnaissance he could, and had picked his targets in Formosa, from where we knew the blow would come. Our machine guns were in place and loaded.

"As fast as our facilities would permit, our shiny aluminum Queens were getting their coat of dull war paint, and I was notified that Old 99 was scheduled to get her camouflage on December eighth.

"That's a date we who were in the Philippines will never forget. With you it's December seventh, but don't be confused, for it's really the same day, only because the Philippines are on the other side of the international date line, we give it a different number.

"The Japanese struck at Pearl Harbor at exactly 7:35 o'clock in the morning Honolulu time. At that same instant it was 4:35 o'clock in the morning of December eighth in the Philippines—a few hours before dawn reached us. I was asleep in the nipa shack which was the officers' quarters on Clark Field.

"I got up at seven as usual and, stumbling in sleepily to shave, snapped on my portable as I always did to get the early morning news broadcast by Don Bell in Manila. By the way, one of the first things the Japs did when they entered the town two weeks later was to shoot the poor devil. In even more rapid-fire style than usual he told us the big news—that the Japs had hit Hawaii.

"We gulped breakfast, and then all the pilots rushed over to operations meeting in the squadron's operations tent, where Major Don Gibbs went over the situation with us. I can see him now, trim, alert, boyish-looking for his rank and years—if he'd lived out the war he would surely be a brigadier general by now. He was as shrewd as he was modest. It was his second tour of duty out East, and he knew the lay of the land.

"Well, gentlemen, this is it," he said. Then he stepped over to the open flap and faced us. "If they've hit Hawaii they can't miss hitting us. I can't tell you when it will come, but it will come. However, I can tell you where it will come from. Here he raised the canvas flap with one hand and pointed up and to the north. 'It will be from right over that hill,' he said.

"We looked at the hill, tree-clad, velvety, beautiful in the sunrise. Beyond it was Iba Field. Still farther was the China Sea and then came Formosa, the black forbidding hunk of something I had looked down on the week before.

"As we left, Gibbs said: 'You're on the stand-by. Orders will be coming through fast all morning.' Then I went back to Old 99. She was one of the few which hadn't been loaded with bombs, as she had been scheduled for camouflage that morning. Only the orders that now came seemed conflicting as those final hours slipped away.

"First came one countermarching the camouflage. Seemed something was afoot, and they couldn't wait for it. Instead we were to load bombs, so we taxied over toward the ammunition dump. Then Bill Cocke, who was to be running

back and forth all morning with conflicting orders, came screaming down the field. 'Take her back to the hangar; they want the camouflage finished by all means!'

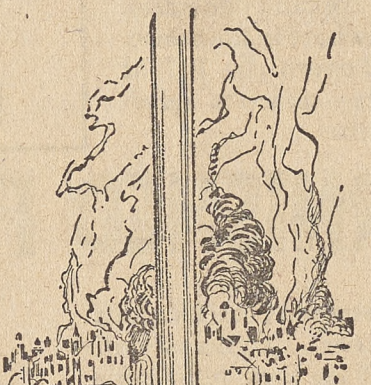

"Presently came another order for me and two other planes of this 30th Squadron to unload our bombs and insert cameras. Nothing more than that, but it was clear they were preparing us now for reconnaissance over Formosa.

"I didn't then know that our little field only reflected what was going on at Manila Headquarters, where our Air Force General Brereton had been up long before dawn and was at a big conference all morning. Of course it's very easy to be wise after the event.

"And of course, even though Pearl Harbor had been attacked, our American Congress had not yet declared war, and perhaps it was too great a responsibility for our Philippine command to strike back when someone might argue that war did not exist technically.

"General Brereton knew our position at Clark Field was so dangerous that if we did not at once strike at Formosa, we could probably never strike at all. He wanted permission to make a reconnaissance flight over there, so we could at least see if the Japanese were making preparations to strike us. Surely, now that they had hit Pearl Harbor, it would be only a minor neutrality violation to fly close enough to Formosa to take a few pictures.

"Consequently the turnaround on this wasn't complete; Headquarters

Don Bell was broadcasting from one of Manila's tallest buildings.

said, well, maybe this would be possible. Wait and see.

"Back on the stand-by with Old 99, I couldn't then know this was why I had been ordered to jerk her bombs, reload her with cameras, and rush the camouflage in the hope that permission would soon come. I only knew big things were moving, and suddenly I thought of my little portable radio. Why not find out what I could? So I sent Tex back to the barracks to get it.

"When he returned, I had fair reception when I took it outside the steel hangar door.

"It crackled with rumors—some already true, some not yet true. They reported a big concentration of Jap ships off Luzon—Manila was expecting an air raid every minute—bombs were reported already dropping on Clark Field. I understand that early false report reached the States.

"It was curious," said Kurtz, "standing right outside that hangar door, looking at Clark Field in the mid-morning sunshine and hearing the radio in my hand saying that bombs were dropping on it. It was crazy, and yet it made us apprehensive.

"A classmate of mine at Randolph Field who had been flying one of two old Douglasses we used for transportation to Manila had just pulled up and got out, and he was listening beside me. Now he said, nervously, 'Why in hell don't we get out of here and save these airplanes?' I could see he was thinking not only of the planes, but of our necks as well.

"I said to him, 'What the hell, now, old man, take it easy—we're under orders.' But I was getting jumpy myself.

"Then quick came another order—early chow for us pilots and our navigators at eleven o'clock. So I told Tex that Eddie Oliver (my navigator) and I were going to shoot on up to the mess hall, eat fast, and get over to the operations tent quick and find out what plans they had lined up for us. Meanwhile Tex was to oversee the unloading of the bombs and the replacing of them with cameras in the bomb bays.

"I'd never seen a Japanese plane except those slides of them they throw on the screen in plane-recognition courses at school.

"I left the mess hall and ran into Tex, looking for me. He had everything under control with Old 99, the crew was standing by, and were there any more orders?

"I told him not yet, I was going over to the operations tent and would be back with them in a very few minutes. Good old Tex, standing there, apparently casual and yet really alert as a fox terrier, getting every word I said. A fine-looking kid, twenty-two years old, he was for me those extra eyes, ears, and hands that every co-pilot should be.

"I was worrying about what would happen if while I was in that operations tent, scout planes might report a Jap bomber formation headed down toward us from Formosa. I trusted our fighter pilots at Iba, but you never could tell—a few bombers might slip through to Clark.

"So I said to Tex: 'Now look, boy—here's the dope. Make no mistake, I don't want any slip-ups. Up to now it's been all play-acting and Boy Scout stuff, but this war has really begun. If we get word in Operations that we're about to be hit here on Clark, we can get Old 99 off the field from where she is, without the usual runway procedure. So watch for me to come pedaling toward you on my bike from operations tent. If I drop my arm as you see me come over the top of the runway crest, that means I want the motors started by the time I get there.'

"Okay, Frank," he said quietly. No saluting or heel-snapping—there's not room for much of that in the Air Force. Then he assured me that the men had all been sent to chow, the engines warmed and checked. Now he turned, and went on back to Old 99.

"The operations tent was crowded with about forty pilots and navigators waiting for briefing to begin. As we waited, I snapped on my radio and we all listened to Manila. This time Don Bell was really packing it across in his excited delivery. Yet we didn't know that the precious minutes had all slipped away and only seconds were left.

We didn't know that General Brereton had got permission from General MacArthur for us to take off on our photographic expedition over Formosa, to see if just possibly the Japanese might be making preparations to attack us. We didn't realize that General Brereton had already rushed to the telephone, and was even at this instant clicking the receiver, trying to get through to us with this order.

"Now Don Bell was saying that bombs really were dropping on Clark Field—he was broadcasting from the top of one of Manila's tallest buildings, and from there he could see big plumes of smoke rising from Clark Field.

"We all smiled at this. We didn't know that he, from Manila, could see around the little hill over in the direction of Iba Field, and that these plumes of smoke were from burning P-40's there. The Japanese were already tearing our American fighters apart to pieces. But we smiled, and were listening for whatever crazy thing Don Bell would say next—General Brereton still trying to get through to us on the phone—when a private, standing just outside the flap of our operations tent, said, in an awe-struck, admiring voice:

"Oh, gee! Look at the pretty Navy formation."

"It froze me. I could hear a drone. I think it froze all of us. The next second, Lieutenant Lee Coats, who was standing nearest the tent flap, stepped to the opening. We watched him look up.

"Navy, hell! Here they come!"

"We turned over tables in the confusion of piling out of that tent, but we're not yet frightened rats, we're still human beings, still organized.

"There they came, the drone rising, right over the hill as Don Gibbs had predicted they would—in an enormous V of V's, three V's in all and about twenty-five Mitsubishi bombers in each V, at about 18,000 to 22,000 feet altitude—coming right at us.

"I heard a scuffling and looked around to see that I was alone except for Lieutenant Glenn Rice—he'd been detailed as photographic officer and was grinding away with his camera at that V of V's. The rest had all taken shelter in a big drainage ditch near by.

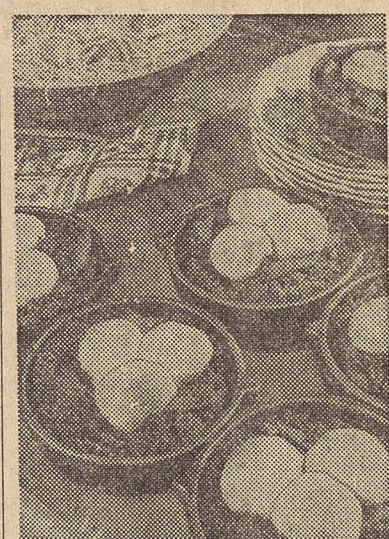

"I stood there because I thought it would be five or ten seconds more before they came to their bomb-release line, and I ought to see the glint of their bombs turning over as they came out of their bomb bays—they seem almost to pause under the plane before they start down—several seconds surely before I saw that glint, and then would be time to jump for the ditch. Meanwhile I wanted to see what kind of pattern this formation planned to lay down over this field, just as, many times before—back in the dry bed of Muroc Lake in California, our practice bombing range in the Mojave Desert—I'd watched a formation of our own to see how good they were.

## HOUSEHOLD MEMOS

by Lynn Chambers

### Eating Guide Assures Health For Your Family

Meat is a first class protein food and deserves a high place in your diet. It's used to build and repair body tissues and is necessary for both children and adults.

Nutritionally speaking, we aren't exactly on our toes. Doctors tell us that nutritional diseases constitute our greatest medical problem, not from the point of view of deaths, but from disability and economic loss.

You as homemakers can do much to give the doctors a big helping hand in this matter if you firmly resolve to feed the family according to the rules laid down by the National Nutrition Council.

The rules are few, easy to follow, and flexible enough to fit any food budget. So, how about it, homemakers, are you willing to give out a big heaping plate of health to your family? Your reward will be happier, healthier and better people to live with.

Here's the guide to good eating. Read it over and over until you have fastened every rule in your mind and you will automatically include food from each of the classes in your menus every day.

Milk is first on the list for it's the most nearly perfect food. See that the grownups get two or more glasses daily and the children have three to four glasses.

Vegetables and fruits regulate and protect the body. They should not ever be skipped for they are easily worked into the diet. Of the vegetables you should have two besides potato, preferably one green and one yellow, and one of these raw.

Of fruits you should have two a day and one of these should be a citrus fruit or tomato. This is a way of guaranteeing enough vitamin C to the system. Vitamin C is easily lost if cooked; that's why a citrus fruit or tomato is required as they are usually eaten raw.

Eggs are expensive right now but you should provide each person with 3 to 5 per week.

When the price goes down and we have more on hand give them at least one a day as that's preferred. It doesn't matter how you have them—as eggs or incorporated into food.

Cereals and bread should be enriched or whole grain; they're necessary every day.

The butter requirement is about 2 tablespoons daily. Other foods may be included in the diet to satisfy the appetite and complete growth and activity needs. This, of course, includes sweets and candies or extra quantities of the above depending upon the activity of the body.

One of the most important classes of foods which must be included in

#### Lynn Says

The Score Card: The vital problem of saving used fats so they can be utilized for explosives falls to the homemaker. Save them in tin cans; when you have a pound take them to your butcher, who will weigh them, pay for them in both points and money.

You can save on foods if you refrigerate them properly. Eggs, for example, belong in the coldest spot in the refrigerator. If you want to separate them, do it as soon as you take them from the refrigerator. Whites beat more quickly at room temperature.

Cheese should be well refrigerated. To keep any of it and the precious points on it from wasting, cover cut surface with melted paraffin. Wrap well before storing.

Milk should go to the coldest spot in the refrigerator and should stay out only when being poured. Bacteria develop 10 times faster at 55 degrees than at 40.

Save Used Fats

#### Lynn Chambers' Point-Saving Menu

Buttered Spinach  
Whole Wheat Rolls Beverage  
Waldorf Salad \*Cherry Cake  
\*Recipe Given

the diet are the protein foods including meat, cheese, fish, poultry or legumes. Although placed last on the list, they are one of the most important and I want to talk particularly about them in today's column because two of the most important of protein foods are rationed.

Proteins are part of every living cell. The body must have them if it is to grow or build or repair itself. You can see the necessity for giving plenty of protein-rich foods to children. Adults need them, too—although their bodies have been built, they are torn down with the work they do, and the tissues must build and repair themselves.

Fish, poultry, cheese and meat are "first class" protein foods. Legumes, in which class we include, roughly speaking, those plants that grow in pods, and consist of navy beans, black-eyed beans, pinto beans, kidney beans, black beans, lima beans and soy beans; dried split peas, peanuts and lentils, are what we call "second class" protein foods and that means they do an excellent job of body building but can't take the place of meat entirely. Possible exceptions to this are peanuts and soybeans, both of which are now being considered complete proteins.

While meat is rationed and point values high, we will have to include plenty of all the proteins in our diet. Meats with lower prices and lower point values are just as good for you, nutritionally speaking. Here's our round-up of recipes today. They'll stretch meat and points and show you delicious ways of fixing the second-class proteins: Dinner Complete.

(Serves 6)  
2 cups sliced raw potatoes  
2 cups chopped celery  
2 cups ground beef (1 pound)  
1 cup sliced raw onions  
1 cup finely cut green pepper  
2 cups cooked tomatoes  
2 teaspoons salt  
¼ teaspoon pepper

Place meat and vegetables in layers in greased baking dish. Season layers with salt and pepper. Place green pepper slices on top for garnish. Bake in a moderate (350-degree) oven for 2 hours.

Vegetables and fruits belong in the dietary daily. If possible have one of each raw so that you can get all the vitamins possible. Long cooking will destroy many precious vitamins.

Country Baked Limas.  
(Serves 8)  
2 cups lima beans  
1½ pound bacon, cut small  
1 medium onion, sliced  
Place lima beans, bacon and onion in layers in pot. Combine the following:

¼ cup light molasses  
1½ tablespoons brown sugar  
2 teaspoons salt  
1 teaspoon dry mustard  
2 tablespoons chili sauce  
1 cup tomato juice

Pour the mixture over beans. Bake 4 to 6 hours in a slow (2½ degree) oven. Uncover for last ½ hour.

\*Cherry Cake.  
¾ cup shortening  
1½ cups sugar  
½ teaspoon vanilla  
¼ teaspoon lemon flavoring  
½ cup finely chopped, drained maraschino cherries

1 cup milk  
3 cups sifted cake flour  
3 teaspoons baking powder  
¼ teaspoon salt  
4 eggs whites

Cream the shortening and sugar. Add the flavoring and chopped cherries, then mix. Add sifted dry ingredients alternately with milk. Beat only until smooth, then fold in egg whites beaten stiff. Place in a greased, shallow, floured pan and bake 45 minutes in a moderate oven (350-375 degrees). Cool and ice with boiled icing.

If you want sugar-saving suggestions write to Lynn Chambers, Western Newspaper Union, 210 South Desplaines Street, Chicago 6, Illinois. Don't forget to enclose a stamped, self-addressed envelope for your reply.

Released by Western Newspaper Union.

## PATTERNS SEWING CIRCLE

#### A Gift Set

COULD any intimate gift be more acceptable than this slip of smooth contour and the matching panties? Lace edging puts both these pieces into the luxury class!

Barbara Bell Pattern No. 1912 is designed for sizes 11, 13, 15, 17 and 19. Corresponding bust measurements 29, 31, 33, 35 and 37. Size 13 (31) slip and panties require 3½ yards 39-inch material; 4 yards lace to trim.

#### Versatile

HERE'S a jumper and jacket to play many roles in your wardrobe! The jumper with a blouse makes a smart office costume. The jumper with jacket is smart for shopping, travel and office, too.

Barbara Bell Pattern No. 1918 is designed for sizes 12, 14, 16, 18, 20, 40 and 42. Corresponding bust measurements 30, 32, 34, 36, 38, 40 and 42. Size 14 (32) ensemble requires, with short sleeves, 4½ yards 39-inch material.

#### Automatic Oxygen Masks

Unlike all other oxygen masks which must be regulated by the wearer, the latest type, now being made for United States military airmen, works automatically and eliminates a great deal of worry and guesswork, says Collier's.

At all altitudes up to 38,000 feet, it supplies the flier with the proper mixture of air and oxygen, the flow of both being regulated by valves which, in turn, are controlled by atmospheric pressure.

## MISERIES OF Baby's Cold Relieved As He Sleeps

Now... here's wonderful home-proved medication that works 2 ways at once to relieve distress of child's cold—even while he sleeps!

Rub throat, chest and back with Vicks VapoRub at bedtime. Instantly VapoRub starts to relieve coughing spasms, muscular soreness or tightness, and invite restful sleep. Often by morning, most of the misery is gone.

For baby's sake, try VapoRub when colds strike. It must be good, because when colds strike it is what most mothers use. VICKS VapoRub

Speedy Duck Hawk  
The duck hawk can fly 180 miles an hour.

### IN THE NAVY AIR CORPS they say:

"PICKLE LUGGER" for torpedo bomber

"DUCK" for an amphibian plane

"FLYING THE WET" for following a river

"CAMEL" for the favorite cigarette with men in the Navy

FIRST IN THE SERVICE  
With men in the Army, Navy, Marine Corps, and Coast Guard, the favorite cigarette is Camel.  
(Based on actual sales records.)

FOR FRESH FLAVOR AND EXTRA MILDNESS, CAMELS CLICK WITH ME!

# CAMEL

## CLASSIFIED DEPARTMENT PERSONAL

PHYSICAL PERFECTION course \$1.00  
1000 super strong men.  
SID'S SYSTEM, Southgate, California.

In the Navy a floor is a "deck," doors are "bulkheads," downstairs is "below," and a cigarette is a "Camel." At least, Camel is the favorite cigarette among Navy men, as it is among men in the Army, Marines, and Coast Guard. (Based on actual sales records from service men's stores.) And a carton of Camels is a favorite gift. Though there are now Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard wherever they are.—Adv.

### Kidneys Must Work Well

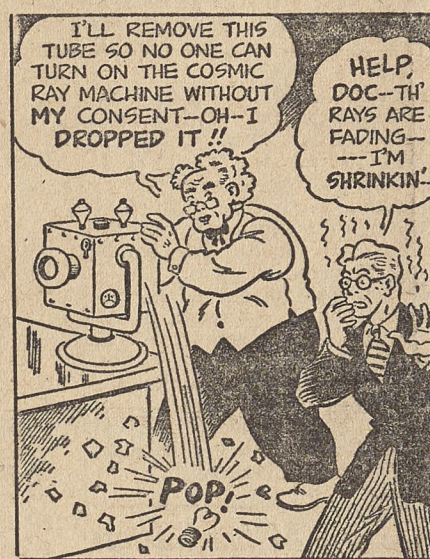

For You To Feel Well  
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.  
Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

Mrs. M. A. Schur  
"Good Neighbor"

Last Saturday morning before an audience of 3,350, Mrs. M. A. Schur, of 4866 Kensington dr., daughter of Mrs. Ona Pitcock, 4769 Del Monte ave, was named as winner of the "orchid" award presented by Tom Breneman on the "Breakfast at Sardi's" nation-wide radio show which was broadcast from the stage of the Fox theatre. Letters nominating Mrs. Schur came from as far as Birmingham, Ala., according to the judges, Hance H. Cleland, president of San Diego Chamber of Commerce and Jack Gross, manager of station KFMB.

This is the second recognition for public service received by Mrs. Schur. Recently she received the Citizen's medal and citation of the Veterans of Foreign Wars for recording messages of American prisoners of war.

Her selection was made on the basis of extra activities carried on over and above regular household duties.

Mrs. Schur is the mother of a 15-year-old daughter, Virginia, and the wife of Comdr. Schur, U. S. navy. She is president of the San Diego colony of New England Women, past Regent of the D. A. R. and currently busy as a member of the Civilian Defense council, the Girl Scouts council and as a driver in the motor corps of the Red Cross.

All of her spare time is spent in monitoring Japanese news broadcasts to gather messages from prisoners. Only recently she rounded out 10,000 messages, all of which she has transmitted to families all over the country.

Mrs. Schur appeared on the broadcast Monday as the honored guest, along with Mayor Harley E. Knox. The breakfast program from Hollywood, on its initial appearance in San Diego, was a major part of the fourth war bond drive.

Mrs. Margaret Boggs and daughter Lucille, of Susanville, Calif., and Mrs. Nora Jones and daughter Josephine of Oroville, Calif., are visiting their father W. T. Nance and brother C. E. Nance. Also the visitors sisters, Mrs. Ruth Armstrong and Mrs. Frances Kluczech, of Ocean Beach.

Ocean Beach  
Women's Club

Mrs. Isabella Churchill, chairman of history and landmarks for the San Diego county federation Womens' clubs will be guest speaker at the February 10, meeting of the Ocean Beach Women's club which will be a share-a-dish luncheon at one o'clock with Mrs. Minnie Woolley in charge of arrangements. Mrs. Churchill is well known as one of the outstanding speakers in the county federation and is well informed on California history and the efforts of club women to have a part in restoring many of the interesting landmarks. Table decorations will be carried out in the Valentine motif and flowers arranged in white containers will be furnished by the luncheon committee. Club members are asked to contact Mrs. Woolley in order that duplications of food may be avoided.

## County Federation Feb. 5

The San Diego County Federation Womens clubs will hold an all day meeting Saturday, February 5, beginning at 10 o'clock, in the Y. W. C. A. building, 10th R. and currently busy as a member of the Civilian Defense council, the Girl Scouts council and as a driver in the motor corps of the Red Cross.

Lee R. Burkhardt  
Claims Bride

Mr. and Mrs. John Goldmann, of 4467 Cape May ave., are announcing the marriage of their daughter, Clara Mary, to Lee R. Burkhardt, U. S. army, son of Mr. and Mrs. L. J. Burkhardt, formerly of Ocean Beach, now of Los Angeles.

The wedding service was read Jan. 19, in Sacred Heart church with Father Edward Hannon officiating. Mrs. Goldmann, suited in tan with corsage of pink carnations, attended her daughter as matron of honor. Mr. Goldmann served as best man.

The bride wore a suit of grey wool with white accessories. Veils and white carnations formed her corsage.

After a short wedding trip to Los Angeles, Fontana, Wheeler Springs and Arrowhead, the young couple returned to the home of the bride's parents. The bridegroom is a native son and has been stationed in Columbia, South Carolina.

AMISTED CIRCLE  
MEETS FEBRUARY 8

The Amisted Circle of Point Loma Methodist church will hold its monthly meeting at the home of Mrs. Robert Ronisdell, 824 Dover st., Mission Beach, 7:30 February 8.

After the regular business meeting Mrs. Berell Smith will give a musical program and Mrs. Ronisdell will review "This Is The Victory" by Leslie Weatherhead, England's leading clergyman.

## RETURNS THRU SNOW STORM

Mrs. Edgar Hastings, returned Sunday from a 2-weeks trip, via bus, to Nickerson, Kan., where she attended funeral services of her aunt, Mrs. Inez Carrie DeJor, who had been ill for some time.

Mrs. Hastings experienced snow storms through Colorado and Utah. The bus driver was courteous and solicitous of all passengers, which made the trip pleasant in spite of the cold and snow, Mrs. Hastings, stated.

O. J. Jones, former Ocean Beach resident, is here on a business and pleasure trip from New Orleans.

Mrs. Clyde Lovelace will leave next Friday for Baltimore, Md., where she will meet Comdr. Lovelace, U.S.N.R. They have leased an apartment and expect to remain on the East coast for some time. Dr. J. M. Whalen, naval reserve, and Mrs. Whalen, of Grand Rapids, Mich., are coming from Los Angeles to reside in the Lovelace home, 4306 Newport.

Mr. and Mrs. Paul C. Phillips, long time residents of Ocean Beach, have returned after an absence of nearly two years. They have purchased a small home at 4945 Santa Monica ave. and have already begun to "farm" their large yard on a cooperative basis with their daughter, Mrs. M. Ware. Mr. Phillips is considering entering the automobile repair business here, confining his efforts to electrical and ignition work. Mr. and Mrs. Phillips are also the parents of Mrs. Albert Smith.

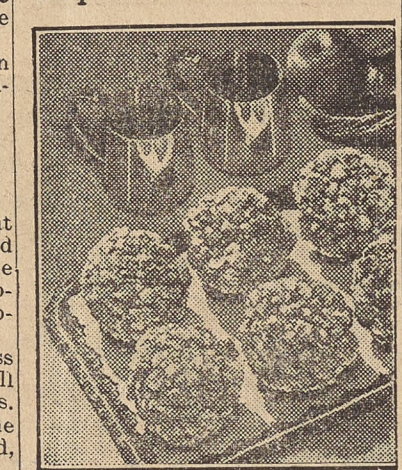

Ocean Beach P.T.A.  
Square Dancing

Founders Day will be celebrated by the Ocean Beach P. T. A. Tuesday, Feb. 8 in the school auditorium at 1:30 p. m. with the president, Mrs. Albert Smith, presiding.

Mrs. L. A. Duer will give a review of the history of the local organization and Mrs. F. N. Belloff will review the national P. T. A. The past presidents will be introduced. Mrs. Roy Hammond is in charge of the music and the Brownies will have the candle lighting service.

The tea will be served by the executive board: Mesdames Albert Smith, L. A. Puig, W. M. Bamford, Stewart Bailey, Walter Turner, L. A. Duer, Martha McIntosh, Dora Groebeck, C. P. Hebert, Louise Olson, W. U. Brame, Nova Billups, Dorothy Lyons, Claude Clavert.

## Popcorn M'las-Sweets

Fun with the family  
every day—  
popping corn the  
e-a-s-y way!

● You don't need any special gadget to make delicious fluffy popped corn! You don't need to use up precious butter, either. Spry-popped corn is so tasty, tender and nut-sweet—so inexpensive—and so easy to make, using just a heavy skillet or kettle. Why not gather the family round tonight and have a popcorn treat?

For a special dessert, for parties or holiday celebrations, make Popcorn M'las-Sweets and just watch the big smiles. These popular confections, Molasses Popcorn Balls, are crisp and chewy, delightful with hot or cold drinks. (Popcorn, you know, is also a wholesome food, high in protein and energy values.)

Everybody loves popped corn and popcorn balls. They're an old American custom. Clip the recipe and enjoy some yourself.

**Spry-Popped Corn**  
½ cup Spry 1 teaspoon salt ½ cup popcorn

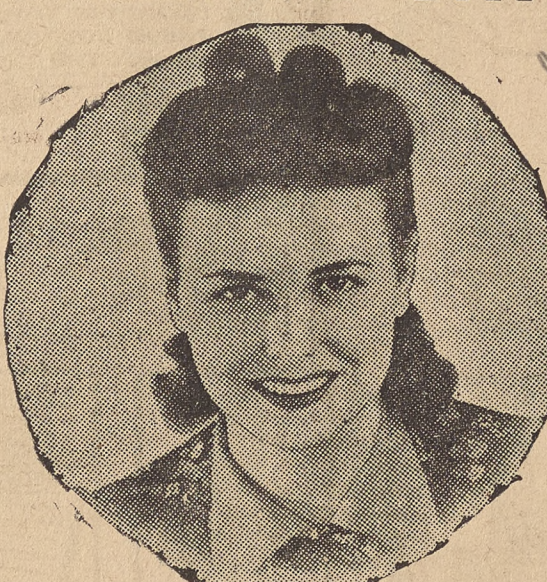

Melt Spry in heavy skillet or kettle and add popcorn. Sprinkle salt over corn and stir until first kernel pops. Cover and shake until all kernels are popped.

**Molasses Popcorn Balls**  
1 cup molasses 1 teaspoon vinegar  
1 cup sugar 4 quarts Spry-popped corn  
¼ cup water

Combine molasses, sugar, water and vinegar, and place over low fire. Cook, with continuous stirring, until a small amount of sirup forms a hard ball in cold water (270°F.). Remove from fire. Pour slowly and evenly over Spry-popped corn, mixing well.

Fashion into large balls immediately. When cool, wrap in waxed paper. Makes six ½-inch balls.

## VALENTINE DAY

FEBRUARY 14

She tore open the wrappings and  
a smile lit her face.

Bless him, he remembered.

DELICIOUS CANDY IN FANCY BOXES

Square Dancing  
At Y. W. C. A.

"Swing on the corner and alle-monds!" "Meet your partner and promenade home!" Land o' goodness—there's goin' to be square-dancin' down to the YWCA.

Music of piano and fiddle will sound the signal for square-dancing to begin at the YWCA auditorium Monday evening at eight o'clock, and all dancers, from Junior, Miss to grandpa, are invited to attend then and every Monday night thereafter.

Dance sessions will last an hour and a half, and all devotees of the country dance are invited to attend. There will be no admission charge. Further information may be had by calling the program activity desk at the YWCA.

Another expansion in the Y. W. C. A.'s wartime program brings a Sunday afternoon hour of pleasure to all who enjoy music. The series begins Sunday at five o'clock with an excellent selection of recorded classics. The music program will be in the library of the association building, and will be followed by an hour of sociability and refreshments. The Sunday gathering is open to everyone, without admission charge.

## Eastern Star Notes

Point Loma chapter, O. E. S., will meet at 8 p. m. Monday, February 7, at Point Loma Masonic hall. Fern Herbst, worthy matron and Leroy Lee, worthy patron, will preside. Visiting Eastern Stars are cordially invited.

Preceding the meeting Agnes Driskill, chairman of the evening, and her committee, will serve a share-your-dish dinner beginning promptly at 6:30 o'clock.

Opinions alter, manners change, creeds rise and fall, but the moral law is written on the tablets of eternity.—Froude.

## New Addresses

1st Lt. and Mrs. George B. Kenline have moved from Rumson, N. J. to 1343 Singer Place, Wilkesburg, 21, Pittsburg, Pa., the girlhood home of Mrs. Kenline. They will join Mrs. Kenline's sister, Mrs. Dudley Tucker, Mr. Tucker and their daughter, Miss Mary Jane Tucker, in the family residence.

Mr. and Mrs. James (Caroline) Vogt, have sold their store property at 2920 Canon st., in Point Loma, and are now residing at 1182 Akron st., Rosecrans district.

Mr. and Mrs. William Richley are receiving their mail at 4986 Santa Monica ave., now that they have retired from the hardware business.

## BIRTHS

To Mr. and Mrs. Chester R. Coats, 4764 Saratoga ave., a son, Jan. 17.

To Mr. and Mrs. Vernon W. Nielson, 4940 Brighton ave., a son, Jan. 17.

Mrs. Walter Lamb has been receiving treatment for more than a week at Navy hospital for an attack of bronchial pneumonia. Mr. Lamb reports his wife continuing to valet in a satisfactory manner.
